ATTENDANCE POLICY

The Lamar Career & Technical Center's primary focus is to prepare each and every student enrolled in a technical program for success and attainment of skills in their program area. Each program is designed to improve student work ethic, experience, and knowledge in their desired program of study. Attendance is a vital component to career and technical education. Students who are not in class lose valuable instructional time.

LCTC has put forth the following guidelines in regards to student attendance:

1. Maximum number of absences per semester is eight. At this point students will be removed from the program with no credit.
2. All absences will result in a zero for the both the shop and class activities unless it is a home school function.
3. All written make-up work will be the responsibility of the student. (If a student does not obtain the missing day/days assignments a zero will remain in the gradebook.) Shop make up hours may be scheduled with the instructor before or after school.
4. Home school activities, sports functions, and two college visits are considered field trips and do not count toward the eight absences.
5. If the home school bus runs and sends students the student will be required to attend that day to receive credit.
6. If the home school is not in session and does not send a bus then a student will not be required to attend that day. However, students are required to make up all missed work.
7. Extenuating circumstances will be addressed by the Director of the Lamar Career & Technical Center on an individual student by student basis.
8. An appeal process will be available to students.
9. Attendance letters will be mailed to parents/guardians and home high school principals/counselors.
10. Students are required to provide documentation for all absences – doctor's notes, college visit documents, death in the family, school related activities, etc. It is the student's responsibility to provide documentation.
11. If a student is 30 minutes or more tardy then they are considered absent.

Every parent, guardian, or other person in the State having charge, control or custody of a child between the ages of seven and seventeen years shall cause the child to attend regularly some day school, public, private, parochial, or parish, not less than the entire term which the child attends (Missouri School Law 167.031).

LAMAR R-1 SCHOOL DISTRICT
Lamar Career and Technical Center
Student Handbook 2020 - 2021

Upon return to school, the student must first check in at the office to clarify absence records and obtain admittance. Any student arriving at school after classes have started must obtain an admit slip from the office before reporting to class.

Students are not allowed to participate in school activities without special approval from the director, if they are absent more than three class periods (one block class) on the day of the activity. This policy is also in effect if a student is absent the day before a daytime field trip or activity. Parents or students must make an effort to receive the necessary approval from the director as soon as the need for the absence is known.

MAKE-UP WORK FOLLOWING ABSENCE

When it appears a student is going to be absent, the parents should contact the school office and explain what school work the student is able to do, and make arrangements for work to be sent home.

-Students will be entitled to make-up work upon request to the teacher. The request for a make-up must be made prior to or on the day the student returns to class, not days or weeks later.

-Maximum time allowed for completion of assignments will be one day for each day absent, up to but not to exceed five school days.

-Students absent on test day will take the test the day they return to class only if the test has been announced prior to the student's absence. Otherwise it may be delayed one class day.

-Incomplete Grades – In the event a student received an INCOMPLETE grade in a course at the end of first semester, the student must complete ALL work within a two-week period after the last day of the semester, otherwise an "F" will be recorded on their permanent record. At the end of the second semester all work shall be completed by the last day of school.

-Students absent from school on school-sponsored trips should contact teachers to make arrangements for make-up work **BEFORE** the trip is taken.

Please note that 3 tardies and/or leaving early equals one absence per semester.

SAFETY AND DRESS

Each student, teacher, and staff member must be alert to potentially hazardous situations and to initiate appropriate remedial procedures necessary to correct any unsafe working conditions that are encountered. Safe working habits are to be continually stressed and enforced, including the following regulations regarding personal safety.

CLOTHING AND JEWELRY

Neckties, full-length sleeves, other loose clothing, watches, and finger rings shall not be worn by individuals when they are engaged in any kind of work where, if worn, will create potentially hazardous conditions.

EYE SAFETY

Missouri State Law, 170.005, requires eye protection in technical lab classes. All students, instructors, and observers are required to have and to use approved safety glasses whenever eye hazards exist, and more specially when they are engaged in or exposed to hazards created by:

- Milling, sawing, shaping, turning, grinding, and stamping of any solid materials.
- Hot liquids, molten metal, solids, gases, and caustic or explosive materials.
- Tempering, heat treating, or kiln firing of materials.
- All types of gas and electric welding, cutting, brazing, and all types of soldering.
- Repairing and servicing vehicles and other equipment where foreign objects may be thrown or dropped onto the face.

FOOTWEAR

Shoes appropriate to the working conditions in the area must be worn by students and instructors. In labs/shops where there is a danger of stepping on sharp objects or having tools, materials or equipment fall on or strike the feet, safety shoes are highly recommended.

HAIR

Hair nets/hair restraints shall be worn by all individuals engaged in any kind of work where long hair presents a potentially hazardous condition.

SAFETY GLASSES

One pair of safety glasses will be issued to each student needing them. Replacement of lost or damaged safety glasses is the student's responsibility. Individual students may purchase, at their own expense,

LAMAR R-1 SCHOOL DISTRICT

prescription safety glasses, providing they meet state law requirements and the standards of the American Material Standard Practice for Occupational and Educational Eye and Face Protection. Students who do not have the proper eye protection cannot be involved in any operation or lab/shop that requires safety glasses. It is the teacher's responsibility to make their students wear safety glasses. Teachers are responsible for all facets of lab safety, including safety areas, glasses, signs, clothing, hair and visitor safety. The eye protection procedures of the Lamar Area Vocational Technical School are in agreement with and comply with Missouri Statute Sections 170.005, 170.007 and 170.009. Violations of the safety policy will be dealt with as follows:

First Offense: Teacher conference/report filed with administration.
Second Offense: Conference with administration, parent notification.
Third Offense: Students may be removed from the program.

DRESS CODE

Employers put great emphasis on personal grooming and appearance. When prospective employers visit the school or a class or when you apply for a job, the first thing they notice is the appearance of students. It is important that they be favorably impressed if they are to be interested in hiring our graduates. You are making an effort to prepare for employment so you need to be moving toward the type of career, dress and grooming that will assist in your goal. Student dress should be modest, and appropriate for the school setting. Specific guidelines in some areas are listed below.

1. Students' general appearance must be clean and include clothing that is in good condition and appropriate for a school setting.
2. Students will be expected to dress in an acceptable and modest manner. **Shorts and skirts should be no shorter than mid-thigh (both when standing and sitting).** Pants, shorts, and skirts are not allowed to sag below the students hip bones. **Tank tops, racer back tops, biker shorts, leggings, and frayed cut-offs, are not considered acceptable attire (exception – girls may wear tank tops with a two inch shoulder strap). Boys may not wear sleeveless t-shirts.** Boxer shorts are not to be worn as shorts. All clothing should be free from holes that expose areas that the dress code requires to be covered. This includes pants that have inappropriate holes that were made by the manufacturer. No undergarments are to be visible at any time. No skin is to be visible between tops and bottoms. Tops that expose cleavage are not to be worn.
3. Unacceptable attire would include T-shirts, etc., which have advertisements or other insignia which are offensive or considered out of place in an education facility. Sleeveless (open cut) shirts are not allowed.
4. Footwear shall be worn at all times.
5. Hair should be clean and well groomed: not of nuisance to the education process. Students who participate in athletics or other school activities are subject to their coach's or their sponsor's requirements for grooming.
6. Body piercing shall not present a safety risk or create a disturbance of the educational process. If, upon the administration's judgment, the appearance is detrimental to the learning environment, an adjustment, covering, or removal will be expected.
7. Final decision as to what is acceptable lies with the administration.

All Offenses: Principal/student conference, change into appropriate clothing and discipline assigned, referral to home high school

TELEPHONE CALLS

All calls made by students must be made through the office. Students will be called to the office if their incoming call is an emergency. Other calls or messages will be taken and forwarded to the student. Students are to make outgoing calls from the office only. **Parents are encouraged to refrain from calling or texting a student's cell phone during school hours as this could cause problems for the student resulting in disciplinary action.**

FIRST AID

The classroom/lab area and the office maintain facilities for first aid. If the injury requires more attention than can be provided by the instructor, a student will be sent or brought to the office. Any student who is ill will be referred to the school nurse for evaluation. Students and teachers should report all accidents on appropriate forms supplied by the office.

REVIEW OF STUDENT RECORDS

An eligible student (18 years of age or older) or the parents/guardians will have access to the student's records under administrative supervision during those times the school is normally in session unless arrangement for another time has been made in writing. The eligible student or parents/guardians have the unique right to inspect the academic record and are entitled to an explanation of any information recorded on the record. School officials are obliged to define or interpret, but not necessarily justify or defend material contained in student records. Examination of the record will be permitted under conditions, which will prevent its alteration or mutilation.

Staff members who have a legitimate interest and need will be allowed information concerning the record of any student. The principal will insure that such use will be limited to specific needs for providing the student with educational services.

The district is required to provide military recruiters and institutions of higher education the names, addresses, and telephone numbers of secondary school students unless the parents/guardians or 18-year-old student submits a written request not to release information without prior written consent.

STUDENTS RIGHTS AND RESPONSIBILITIES

The Board of Education believes that students have rights, which should be recognized and respected. It also believes that every right carries with it certain responsibilities.

Among these student rights and responsibilities are the following:

- ❖ The right to attend free public schools; the responsibility to attend school regularly and to observe school policies, rules and regulations deemed essential for permitting others to learn at school.
- ❖ The right to a quality education is the responsibility, to put forth the best efforts during the educational process.
- ❖ Civil rights—including the rights to equal educational opportunity and Freedom from discrimination: the responsibility not to discriminate against others.
- ❖ The right to free inquiry and expression is the responsibility, to observe reasonable rules and regulations regarding these rights.
- ❖ The right to due process of law with respect to suspensions, expulsion, and decisions, which the student believes injure his rights.
- ❖ The right to privacy, which includes privacy in respect to the student's school records.

It is the Board's belief that, as part of the educational process, students should be made aware of their legal rights and of the legal authority of the Board to make and delegate authority to its staff and to make rules and regulations regarding the orderly operation of the district schools. If the policy guidelines adopted by the Board are to be successful, it must be understood that school officials and teachers have the authority to interpret and apply policy in a given situation. Students must follow any such interpretation subject to an appeal. Schools must be a place where students are encouraged to learn. Standards of conduct are established by the Board of Education to create an environment in which each

student's right to learn is protected. Students and their parents/guardians will be notified of their rights and responsibilities, including standards of conduct, through handbooks distributed annually. When the rights and responsibilities of individuals are clearly understood, the elements of respect and cooperation will result in the harmonious and constructive education of the student.

**NOTICE OF RIGHTS FOR DISABLED STUDENTS AND
THEIR PARENTS UNDER 504 OF THE REHABILITATION ACT
OF 1973**

The Rehabilitation Act of 1973, commonly known in the schools as "Section 504", is a federal law passed by the United States Congress with the purpose of prohibiting discrimination against disabled persons who may participate in, or receive benefits from, programs receiving federal financial assistance. In the public schools specifically, 504 applies to ensure that eligible disabled students are provided with educational benefits and opportunities equal to those provided to non-disabled. Under 504, a student is considered "disabled" if he or she suffers from a physical or mental impairment that substantially limits one or more of their major life activities, such as learning, walking, seeing, hearing, breathing, working, and performing manual tasks. Section 504 also applies to students with a record of having a substantially-limiting impairments, or who are regarded as being disabled even if they are truly not disabled. Students can be considered disabled, and can receive services under 504, even if they do not qualify for, or receive, special education services. The purpose of this Notice is to inform parents and students of the rights granted them under 504. The federal regulations that implement 504 are found at Title 34, Part 104 of the Code of Federal Regulations (CFR) and entitles parents of eligible students, and the students themselves, to the following rights:

1. You have a right to be informed about your rights under 504. (34 CFR 104.32) The School District must provide you with written notice of your rights under 504 (this document represents written notice of rights as required under 504). If you need further explanation or clarification of any of the rights described in this Notice, contact appropriate staff persons at the District's 504 Office and they will assist you in understanding your rights.
2. Under 504, your child has the right to an appropriated education designed to meet his or her educational needs as adequately as the needs of non-disabled students are met (34 CFR 104.33).
3. Your child has the right to free educational services, with the exception of certain costs normally also paid by the parents of non-disabled students. Insurance companies and other similar third parties are not relieved of any existing obligations to provide or pay for services to a student that becomes eligible for services under 504 (34 CFR 104.33).
4. To the maximum extent appropriate, your child has the right to be educated with children who are not disabled. In this instance, the student will be reported to the building administrator and proper action will be taken.
