Dear Parents,

Raleigh County Schools provides a variety of services and placement continuum options for students with disabilities. All services and placement decisions are determined by the Individual Education Program (IEP) team which includes parents and school personnel. According to federal guidelines, students are placed in the Least Restrictive Environment in which they can be successful.

Raleigh County Schools currently serves about 1,950 students with disabilities, which is about 17% of the total school population. If you suspect that your child has a disability, please read our Child Find information. You are entitled to a free educational evaluation for your child to determine if special education and/or related services are necessary for your child to receive a Free and Appropriate Public Education (FAPE).

Raleigh County Schools is prepared to meet your family's specialized educational needs through our robust network of highly qualified teachers, therapists, and personal care staff. We embrace our district moto of "making a difference one student at a time" by meeting the individualized needs of your child with care, compassion, and respect.

A handwritten signature in blue ink that reads "Allen Sexton".

Allen Sexton

Director of Special Programs
