Description of PD Sessions:

Six two-hour sessions will be provided to pairs of inclusion teachers. Both the General Education and Special Education Teacher working in a co-taught classroom must attend together. A stipend of \$30.00 per hour will be paid to attend.

Time during the sessions will be spent deconstructing the NxG Standards that are being taught in individual co-taught classrooms. The purpose behind deconstructing the standards is to identify learning targets that are prerequisites to understanding the grade level standards. Co-teachers can explore state approved sites for finding lesson plans that address the learning targets. In addition, APL strategies will be reviewed as a means of assuring a high level of student engagement during the lessons.

Note: This year, there will be no culminating project to develop by the end of the sessions. However, faithful attendance at all six sessions is still crucial in order for the professional development to be of value in increasing student achievement on statewide assessments.
