

Welcome to the 2022/2023 school year!

As our superintendent has stated in her welcoming letter this year, our focus is going to be on education and not on covid protocols. With that being said, please keep your children home if they are not feeling well. Wash hands often. If your child has a fever or is vomiting, they must remain out of school for 24 hours after symptoms resolve. We are attaching a permission form for optional rapid covid testing to be administered at school if children start showing symptoms or if parents request testing for exposure.

If you test positive:

- Isolate at home for at least 5 days after the first day of symptoms or the day of testing positive (whichever came first)
- Leave isolation after day 5 if symptoms have improved and there is no fever for 24 hours
- Wear a mask in public when indoors until 10 days after testing positive for covid (even without symptoms)

We are not requiring return to play forms and clearance from doctors to return to sports or physical activity.

Please be sure to complete the health forms through powerschool. If your child will require prescription medications while at school, please reach out to your school nurse for the paperwork that will need to be completed.

If your child has asthma or allergic reactions that require an emergency action plan, please provide the school with current action plans.

From your school nurses,
