Dear Titan Nation,

The 22-23 school year is upon us and we cannot wait until our students return to our buildings. I would like to share some information with you regarding COVID and the updated CDC guidance as it relates to Monmouth-Roseville Schools.

Masks are optional for students and staff. If cases rise substantially, we will work with the Warren County Department of Health to determine a plan of action.

We will continue to emphasize handwashing and respiratory etiquette. If there is a COVID positive case in a classroom or bus, we will follow our established cleaning protocols.

Students and staff who have symptoms of respiratory or gastrointestinal infectious illness, such as cough, fever, sore throat, vomiting or diarrhea or COVID-19, should stay home, contact their child’s school, and/or consider contacting their health care provider for testing and care. Students and staff who are diagnosed with a non-COVID illness must meet the following criteria:

- fever-free for 24 hours without the use of fever-reducing medication
- diarrhea/vomiting ceased for 24 hours and other symptoms have improved.

Students and staff who are COVID-19 positive will be excluded as directed by IDPH/ISBE guidance.

We are looking forward to a great 2022-2023 school year. If you have any questions or concerns related to this information, please contact the school your child attends.

Yours in Education,

Edward D. Fletcher
