Anticipated Upcoming Grounds Projects

1. Water Supply at WHS: This summer we have had significant water issues at the high school. Several contractors have consulted with us, as we discuss options and next steps. This will be discussed in detail at the September 19 School Board meeting.
2. Landscape design and beautification of the new Front Entrance at Center School will be taking place in the next few weeks.
3. We continue to work collaboratively to plan for Blackout on September 23, 2022. This continues to be a meaningful and impactful event for our school community.
4. Continue assessment of playground accessibility at Golden Brook School: We will be providing upgrades to our playground to ensure accessibility for all students and community members to the playground and its equipment, as well as continuing to work with state and area agencies to ensure ADA compliance and best practices.
