

ADMINISTRATIVE CIRCULAR NO. 5

Office of Leadership and Learning

SAN DIEGO UNIFIED SCHOOL DISTRICT

Date: August 26, 2015

To: All Principals of Senior High and Atypical Schools (**not subject to Williams site visits**), Division and Department Heads

Subject: GRADES 9-12 SUFFICIENCY OF INSTRUCTIONAL MATERIALS FOR 2015-2016 SCHOOL YEAR AND COMPLIANCE WITH WILLIAMS LEGISLATION

Department and/or Persons Concerned: Principals, Vice Principals, Library Staff

Due Date: September 25, 2015

Reference: Education Code 60119, Board Policy F-5000, District Procedures 4050, 4097, 4500, 4520, and 4521

Action Requested: Complete the attached 2015-16 Principal Verification of Instructional Materials Sufficiency – Gr. 9-12 and Uniform Complaint Procedure Posting (Att. B) and email/fax a signed copy to Christopher Woehler, Williams Coordinator and Manager, Instructional Resources and Materials Department, at (619) 542-5796.

Brief Explanation:

In accordance with Education Code 60119, each school district's governing board must hold a public hearing no later than the eighth week of the school year to determine, through a resolution, whether each pupil in the district has sufficient textbooks or instructional materials, or both, in the following subjects: mathematics, science, history/social science, and English language arts. The governing board must also determine whether each student enrolled in a foreign language or health course has been provided sufficient textbooks or instructional materials. According to Williams Legislation, sufficient textbooks or instructional materials means that each pupil, including English learners, must have a district-adopted textbook or instructional materials, or both, to use in class and to take home. Access to two sets of instructional materials is not required.

Williams Legislation also requires science classrooms to have basic science laboratory equipment available for students in science laboratory courses offered in Grades 9 to 12. A *Williams Science Laboratory Equipment Worksheet* has been developed to help schools determine if there is sufficient science lab equipment. Schools are to complete a worksheet for each science lab course and room where it is taught.

Note: Schools subject to a Williams team audit by the San Diego County Office of Education are not required to participate in this process. Compliance will be determined by the Williams team visit.

To ensure your school is sufficient and meets the requirements of the law, including basic science laboratory equipment, it is necessary for you to complete the attached 2015-16 Principal Verification Statement - Instructional Materials Sufficiency – Gr. 9-12 and Uniform Complaint Procedure Posting (Att. B) by September 25, 2015 and email insmatlmail@sandi.net or fax (619) 542-5796 a signed copy to the Instructional Materials Office.

This deadline is critical to meeting the requirements of Education Code 60119 and receiving State instructional materials funding.

Below is an outline of this process to assist you.

- Verify the Uniform Complaint Procedure is visibly posted in each classroom per Williams Legislation [requirement](#).
- Complete the *Instructional Materials Sufficiency Survey* (Att. A) and the *Williams Science Lab Equipment Worksheet(s)* (Attachments C) by September 18, 2015 and retain at site for review upon request.
- Base your data on inventory of core instructional materials using Destiny Textbook Manager and PowerSchool student enrollment in core courses for a specific day, no later than **September 11, 2015**, with the understanding that course enrollments will change and sufficiency of instructional materials will be maintained as needed.

If the results of the Instructional Materials Survey and Williams Science Lab Equipment Worksheet indicate sufficiency at your site:

- Complete the *Principal Verification Statement-Instructional Materials Sufficiency – Gr. 9-12 and Uniform Complaint Procedure Posting* (Att. B) by confirming, signing, and dating the form.
- Email instmatlmail@sandi.net or fax (619) 542-5796 Att. B to the Instructional Materials Office no later than September 25, 2015.
- **RETAIN ALL ORIGINALS** of each attachment at your site for review upon request.

If the results of the Instructional Materials Survey indicate insufficiencies at your site:

- Immediately take action to remedy insufficiencies of student instructional materials by requesting additional core subject area materials through a Destiny Textbook Order and contacting Anne Mealiffe amealiffe@sandi.net, (858) 496-8465 or by ordering adequate instructional materials by contacting Erika Hunter at ehunter@sandi.net, (858) 522-5821.
- Immediately take action to remedy any insufficiencies in science laboratory equipment by ordering through the District's ePro requisitioning system and contacting the Strategic Sourcing and Contracts Department at (858) 522-5808.
- Receive and distribute the additional materials to students and teachers.
- Complete the *Principal Verification Statement-Instructional Materials Sufficiency –*

Gr. 9-12 and Uniform Complaint Procedure Posting (Att. B) by confirming, signing, and dating the form.

- Email instmatlmail@sandi.net or fax (619) 542-5796 Att. B to the Instructional Materials Office no later than September 25, 2015.
- **RETAIN ALL ORIGINALS** of each attachment at your site (*you may be required to submit this information if audited*).

Questions regarding information included in this circular may be directed to:

- Roxana Garcia, Administrative Aide, Instructional Resources and Materials Department, rgarcia4@sandi.net, (858) 496-8466
- Christopher Woehler, Williams Coordinator and Manager, Instructional Resources and Materials Department, cwoehler@sandi.net, (858) 496-8461

Christopher Woehler
Williams Coordinator and Manager,
Instructional Resources and Materials Department

APPROVED:

Jim Solo
Executive Director, Leadership and Learning

BOTH BOXES MUST BE CHECKED TO COMPLETE THIS FORM

Uniform Complaint Procedure (UCP)

By checking this box,

I confirm the current Uniform Complaint Procedure is visibly posted in all classrooms.

By checking this box,

I confirm on September 25, 2015, our school had sufficient instructional materials for each student and sufficient science lab equipment for the 2015-2016 school year. I agree to maintain sufficiency of instructional materials throughout the school year as enrollments change.

Date:

Williams Science Lab Equipment Worksheet

ATTACHMENT C

DISTRICT: _____ SCHOOL: _____ DATE: _____

The Williams legislation uses the term science “equipment”, but does not define it. Dictionaries and science supply catalogs provide clarification of equipment vs supplies, with equipment being the larger, more durable items. The Oxford On-line Dictionary differentiates equipment from materials as follows: “Equipment is usually solid things, especially large ones. Materials may be liquids, powders or books, CDs, etc. containing information, as well as small solid items.” With this in mind, along with the intent of Williams that all students have access to “sufficient instructional materials”, the following worksheet has been created to help schools determine if there is sufficient science lab equipment.

To Be Completed by the School for Each 9-12 Science Course and room where it is taught:.

<i>Course:</i>		
<i>Room #</i>	<i>Max # of students per period:</i>	<i># of lab stations:</i>
Categories	List Equipment	<i>Are there sufficient supplies and equipment for each student to participate in the required labs for this course?</i>
General Glassware and tools		Yes No
Chemicals and consumables		Yes No
Lab Specific Materials available per lab station – such as magnets or dissecting trays, prepared slides, model sets or kits		Yes No
Safety Equipment (for students, not storage; i.e. goggles)		Yes No
		Yes No
Equipment available for <u>each</u> lab station (list major equipment such as balances and microscopes)		Yes No
		Yes No
		Yes No
		Yes No
		Yes No
