LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Innovations Academy
CDS Code: 37683380118083
School Year: 2022-23
LEA contact information:
Christine Kuglen
Director
christine@innovationsacademy.org
858-271-1414

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

Budget Overview for the 2022-23 School Year
This chart shows the total general purpose revenue Innovations Academy expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Innovations Academy is $5,304,238, of which $4,313,726 is Local Control Funding Formula (LCFF), $716,964 is other state funds, $50,000 is local funds, and $223,548 is federal funds. Of the $4,313,726 in LCFF Funds, $240,022 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Innovations Academy plans to spend for 2022-23. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Innovations Academy plans to spend $5,251,101 for the 2022-23 school year. Of that amount, $4,900,000 is tied to actions/services in the LCAP and $351,101 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Funds spent from the general fund that are not reflected in the LCAP include funds for office supplies, some administrative expenses. Additionally, financial services and legal services and some consulting fees are not in the LCAP. It is possible that this coming year the costs for providing meals to our students will not be counted in the LCAP.

**Increased or Improved Services for High Needs Students in the LCAP for the 2022-23 School Year**

In 2022-23, Innovations Academy is projecting it will receive $240,022 based on the enrollment of foster youth, English learner, and low-income students. Innovations Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Innovations Academy plans to spend $159,200 towards meeting this requirement, as described in the LCAP.

Our high needs students are often our special education students. Those that are not special education students receive support from our teacher assistants and education consultants who are hired to perform a specialized service, such as a reading or math intervention. They are assessed at the start of the year and their specific needs are identified. We have high needs students who are academically stable but need help with behavioral, social and emotional needs. For those students we use social emotional interventions provided by our full time Marriage and Family Therapist and supported by our teacher assistants, teachers, office staff and administration or...
volunteers. For those that need academic support, they receive additional support from teacher assistants, their
teacher in small classroom groups using methods they have received training to implement and volunteers.
Update on Increased or Improved Services for High Needs Students in 2021-22

This chart compares what Innovations Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Innovations Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2021-22, Innovations Academy's LCAP budgeted $234,000 for planned actions to increase or improve services for high needs students. Innovations Academy actually spent $230,000 for actions to increase or improve services for high needs students in 2021-22.

The difference between the budgeted and actual expenditures of $-4,000 had the following impact on Innovations Academy’s ability to increase or improve services for high needs students:

Increasing or improving services to students does not always cost money. It is sometimes about restructuring the staff we have, supplementing with peer support and volunteers and making sure our teachers are receiving the coaching from existing staff and each other to be more efficient about providing these services.
Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. The following is a one-time mid-year report to the local governing board or body and educational partners related to engagement on, and implementation of, these Acts.

A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).

A description of how the LEA used, or plans to use, the additional concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.

A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.
A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.

A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA's 2021–22 LCAP and Annual Update.

Innovations Academy considers the LCAP to be the comprehensive planning document that captures the priorities, goals, and actions to improve student outcomes. As such, all additional funds received are viewed through the lens of the LCAP to determine where student needs exist and what services are needed to address those needs. Some examples of how these additional funds are aligned include providing academic materials & PPE, which align with our third LCAP goal. We also provided additional professional development to teachers and hands-on learning experiences, which aligns with our second LCAP goal. We also hired additional staff to support struggling students, which aligns with our first LCAP goal.

Instructions for the Supplement to the Annual Update for the 2021–22 Local Control and Accountability Plan Year

For additional questions or technical assistance related to the completion of the Supplement to the Annual Update to the 2021–22 Local Control and Accountability Plan (LCAP), please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction

California’s 2021–22 Budget Act, the federal American Rescue Plan Act of 2021, and other state and federal relief acts have provided local educational agencies (LEAs) with a significant increase in funding to support students, teachers, staff, and their communities in recovering from the COVID-19 pandemic and to address the impacts of distance learning on students. Section 124(e) of Assembly Bill 130 requires LEAs to present an update on the Annual Update to the 2021–22 LCAP and Budget Overview for Parents on or before February 28, 2022, at a regularly scheduled meeting of the governing board or body of the LEA. At this meeting, the LEA must include all of the following:
- The Supplement to the Annual Update for the 2021–22 LCAP (2021–22 Supplement);
- All available mid-year outcome data related to metrics identified in the 2021–22 LCAP; and
- Mid-year expenditure and implementation data on all actions identified in the 2021–22 LCAP.

When reporting available mid-year outcome, expenditure, and implementation data, LEAs have flexibility to provide this information as best suits the local context, provided that it is succinct and contains a level of detail that is meaningful and accessible for the LEA’s educational partners.

The 2021–22 Supplement is considered part of the 2022–23 LCAP for the purposes of adoption, review, and approval, and must be included with the LCAP as follows:
- The 2022–23 Budget Overview for Parents
- The 2021–22 Supplement
- The 2022–23 LCAP
- The Action Tables for the 2022–23 LCAP
- The Instructions for the LCAP Template

As such, the 2021–22 Supplement will be submitted for review and approval as part of the LEA’s 2022–23 LCAP.

**Instructions**

Respond to the following prompts, as required. In responding to these prompts, LEAs must, to the greatest extent practicable, provide succinct responses that contain a level of detail that will be meaningful and accessible for the LEA’s educational partners and the broader public and must, to the greatest extent practicable, use language that is understandable and accessible to parents.

In responding to these prompts, the LEA has flexibility to reference information provided in other planning documents. An LEA that chooses to reference information provided in other planning documents must identify the plan(s) being referenced, where the plan(s) are located (such as a link to a web page), and where in the plan the information being referenced may be found.

**Prompt 1:** “A description of how and when the LEA engaged, or plans to engage, its educational partners on the use of funds provided through the Budget Act of 2021 that were not included in the 2020–21 Local Control and Accountability Plan (LCAP).”

In general, LEAs have flexibility in deciding what funds are included in the LCAP and to what extent those funds are included. If the LEA received funding through the Budget Act of 2021 that it would have typically included within its LCAP, identify the funds provided in the Budget Act of 2021 that were not included in the LCAP and provide a description of how the LEA has engaged its educational partners on the use of funds. If an LEA included the applicable funds in its adopted 2021–22 LCAP, provide this explanation.

**Prompt 2:** “A description of how LEA used, or plans to use, the concentration grant add-on funding it received to increase the number of staff who provide direct services to students on school campuses with an enrollment of students who are low-income, English learners, and/or foster youth that is greater than 55 percent.”
If LEA does not receive a concentration grant or the concentration grant add-on, provide this explanation.

Describe how the LEA is using, or plans to use, the concentration grant add-on funds received consistent with California Education Code Section 42238.02, as amended, to increase the number of certificated staff, classified staff, or both, including custodial staff, who provide direct services to students on school campuses with greater than 55 percent unduplicated pupil enrollment, as compared to schools with an enrollment of unduplicated students that is equal to or less than 55 percent.

In the event that the additional concentration grant add-on is not sufficient to increase the number of staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, describe how the LEA is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

**Prompt 3:** “A description of how and when the LEA engaged its educational partners on the use of one-time federal funds received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on pupils.”

If the LEA did not receive one-time federal funding to support recovery from the COVID-19 pandemic and the impacts of distance learning on students, provide this explanation.

Describe how and when the LEA engaged its educational partners on the use of one-time federal funds it received that are intended to support recovery from the COVID-19 pandemic and the impacts of distance learning on students. See the COVID-19 Relief Funding Summary Sheet web page ([https://www.cde.ca.gov/fg/cr/relieffunds.asp](https://www.cde.ca.gov/fg/cr/relieffunds.asp)) for a listing of COVID-19 relief funding and the Federal Stimulus Funding web page ([https://www.cde.ca.gov/fg/cr/](https://www.cde.ca.gov/fg/cr/)) for additional information on these funds. The LEA is not required to describe engagement that has taken place related to state funds.

**Prompt 4:** “A description of how the LEA is implementing the federal American Rescue Plan Act and federal Elementary and Secondary School Emergency Relief expenditure plan, and the successes and challenges experienced during implementation.”

If an LEA does not receive ESSER III funding, provide this explanation.

Describe the LEA’s implementation of its efforts to maintain the health and safety of students, educators, and other staff and ensure the continuity of services, as required by the federal American Rescue Plan Act of 2021, and its implementation of the federal Elementary and Secondary School Emergency Relief (ESSER) expenditure plan to date, including successes and challenges.

**Prompt 5:** “A description of how the LEA is using its fiscal resources received for the 2021–22 school year in a manner that is consistent with the applicable plans and is aligned with the LEA’s 2021–22 LCAP and Annual Update.”

Summarize how the LEA is using its fiscal resources received for the 2021–22 school year to implement the requirements of applicable plans in a manner that is aligned with the LEA’s 2021–22 LCAP. For purposes of responding to this prompt, “applicable plans” include the Safe
Return to In-Person Instruction and Continuity of Services Plan and the ESSER III Expenditure Plan.

California Department of Education
November 2021
Plan Summary [2022-23]

General Information
A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Innovations Academy opened our doors in September 2008 and located in four different locations in our first five years. We finally moved into our forever home in August of 2020, in the midst of the pandemic. Our new facility, in Kearny Mesa, was built according to our needs and goals. During the 21-22 school year the students of Innovations Academy came from 106 different neighborhood schools in 5 different school districts of our county living in 51 different zip codes. At the time of writing, we have 470 students enrolled and 50 staff members employed at Innovations. The student population is comprised of approximately 20% special education students, 28% FRL, and many working class families of all races that are facing increasing economic hardship due to the high cost of living in San Diego. Many rely heavily on the support of extended family even when they don't qualify as low income.

Following a constructivist philosophy, our community is comprised of families that see value in both interactive learning and a strong social emotional curriculum. The diversity of religions, family cultures and practices, world views and ethnicities creates an environment in which we experience a rich mix of viewpoints daily. As progressive constructivist educators, we believe that every student brings background, context, skills and knowledge to their education and the learning environment. Additionally, our job is to help students construct their learning by providing experiences that provoke thought and invite action for learning. We believe that each person's journey is unique to them and is practically immeasurable. Our goal is to facilitate learning along that journey.

The testing and data culture that has been created over the past 25 years has been destructive to both schools and children. Children are not data points, they are individuals, each with unique variables (such as unique timelines, readiness and life factors) contributing to their learning, their decisions and their educational experiences. What have recently been called 21st century skills, are truly skills for the
education of all people, no matter the century, in order to be civic minded, highly functioning learners. The skills of collaboration and teamwork, creativity and imagination, critical thinking and problem solving are deeply rooted in our program. How we teach is profoundly different than the typical public school and is nearly impossible to measure. How we interact is also different. Our behavior management is community centered and designed to promote doing the right thing when no one is looking. Our social emotional program is based on Adlerian theory and is the antithesis of what you would find in a traditional school environment, which is typically designed from a behaviorist based philosophy. How we assess whether or not our school has achieved its goals is crucial to determining the overall effectiveness of our program components and structure. Frequent and varied assessments, both summative and formative, provide insight to teachers when planning instruction and serve as relevant data for use by school leadership when making decisions leading to program evaluation and improvement. Regular assessment and reporting of student outcomes also allows parents, students and teachers the information needed to guide and decide the paths to take on the educational journey.

Innovations Academy utilizes both traditional assessments, teacher-designed assessments and observation of students to continually review current levels and progress. Traditional assessments such as the DRA and NWEA MAP assessment, writing rubrics, published curriculum and online resources are utilized alongside student inquiry-based learning and project work and peer evaluation. We are very aware that no single assessment, especially a standardized, statewide or nationwide assessments can define the skills, knowledge or academic level of a student and that there are many very different ways that a demonstration of learning can and should look. Most important is that a student knows their strengths and challenges and builds fortitude for their own long educational journey. Innovations Academy students learn the same content, standards and skills as all other students but how we do it is wonderful. At Innovations Academy we are dedicated to inquiry, deep project work and hands-on exploration. Our students wonder, build, discuss, debate, perform, create, interact, research, defend, cut, color, draw, paint, challenge, diagnose, interview, speak, determine and explore in collaboration with each other and the real world. We have stayed true to these values throughout the COVID-19 pandemic. We provide the resources, guidance and expertise as adults who are further along in the journey.

Innovations Academy is dedicated to our mission of supporting students to powerfully create their lives through self-expression, compassionate connection and purposeful learning.

Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Despite the challenges of administering standardized assessments within the confines of COVID-19 protocols, 100% of all grade 2-8 students took the NWEA MAP Reading, Language Usage, and Math tests in both fall 2021, winter 2022 and end of the year. In analyzing our data from fall to winter 2021 (first semester), the mean RIT scores for almost all grade levels was above the nation’s norms in both fall and winter test sessions for all subjects. Six (out of seven) grade levels’ average RIT scores were above the nation's average in reading and language, and seven (out of nine) grade levels’ average RIT scores were above the nation’s average in math.

We have continued to work on integrating more conscious test preparation in our daily academic routines, with the goal of improving our CAASPP scores that will be reflected on the California School Dashboard. 100% of grade 3-8 students took one or more Smarter Balanced Interim Assessment Blocks throughout the school year to acclimate students to the test format, designated supports, and stimulus styles.
We also integrated new schoolwide assessment systems for spelling and math fact fluency to better identify students who needed additional support. We are confident that our actions are resulting in continued strength in our Dashboard local indicators.

**Reflections: Identified Need**

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Similar to last year, we need to improve our CAASPP scores. Through teacher observation and student formative and summative assessment, we have come to understand that the CAASPP scores do not reflect the quality of instruction nor the level of academic achievement of our students. They simply reflect the amount of time we have spent prepping students to take the CAASPP test, something we have been challenged to do over the years because we want to focus on student engagement, reflection, interest and real world application of learning. It is our desire for our students to become real world successful, not necessarily test taking experts. Our challenge is now to prep students to take a specifically designed test without altering the mission of our charter and without assigning the majority of our instructional minutes to test preparation and without cutting out enrichment and other learning experiences. We continually seek techniques for incorporating test taking skills needed to raise CAASPP scores into our inquiry-based rich curriculum. We see this as an area of survival for our charter school since we are assessed now mainly on these scores. Our students need more practice and intense exposure to the format and specific types of tricky questions as well as the complex and unusual language that comprise the questions of the CAASPP.

**LCAP Highlights**

A brief overview of the LCAP, including any key features that should be emphasized.

We have five main goals for this LCAP, which have been updated, but do not differ significantly from previous years because they are broad goals that address the needs of all learners, teachers, parents and guardians. Our main theme for these goals is to improve test scores with a focus on low income, foster youth, and English learners, so that our community is not threatened with closure of our charter at any point. We seek to improve the test scores of our students through a variety of ways that hold true to our hands-on, constructivist philosophy. We will do this by analyzing various data, supporting our teachers, offering targeted academic support (inside and outside of the classroom) to struggling students, and making sure we are setting classrooms up for success by purchasing necessary materials. We know that good teachers who are supported in their practice to work are of the utmost importance to a school, so we will continue to support teachers and will adopt a new salary scale to attract and retain strong teachers. We will continue to emphasize the importance of collaborating with students’ families to engage parents and collaborate on issues affecting our students.
Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

**Schools Identified**
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

| N/A Innovations Academy is not designated as a school receiving Comprehensive Support and Improvement |

**Support for Identified Schools**
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

| N/A |

**Monitoring and Evaluating Effectiveness**
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

| N/A |
## Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

We have the special circumstance that we are a one small school entity and allow continuous educational partner input. Innovations Academy solicited recommendations and comments from our educational partners via email, phone calls, open forum meetings, and video conferences. Additionally, all families were provided the Director's contact information so they could reach out with input or questions. Our staff members (teachers, principals, admin, and other school personnel) brainstormed action items that they would like to see. A special section of our website was created for parents to interact with the LCAP and to answer their questions such as “what is the LCAP?” and “What happened to the LCAP during the pandemic?”. Many staff members and parents reached out directly to the director to give their feedback. The director sent five surveys (one for each goal) to families and staff members to educate parents about our goals and actions and to obtain targeted feedback.

A summary of the feedback provided by specific educational partners.

Educational partners input was used to reword actions, to make them more detailed and to help us see how to break up a goal into more understandable parts.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Feedback on Goal #1 was given recommending teaching test taking skills as well as practicing the test, which altered goal 1, action 1 to include teaching test taking skills. Feedback was given suggesting more utilization of more community members to support reading improvement which contributed to the development of goal 1, action 5.

Feedback on Goal #2 supported the need for teacher observations, which is part of goal 2, action 2. We also decided to leave our testing to just the beginning and end of the year based on specific feedback regarding goal 2.

Goal 5, action 2 was reworded and detailed out based on feedback given on our stakeholder survey for goal 5.
Goals and Actions

<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Use social emotional and academic assessment data to improve instruction for all students and provide targeted intervention for struggling students.</td>
</tr>
</tbody>
</table>

State Priority 2: State Standards (Conditions of Learning)
State Priority 4: Pupil Achievement (Pupil Outcomes)
State Priority 6: School Climate (Engagement)
State Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

We were in the orange section in both subjects on our 2019 dashboard. This is an important area for us to take on and although we have certainly improved since our last LCAP, it is an area that we will continue to work to grow in. We know that our students are bright and capable, use academic vocabulary during class, can explain their thinking and have strong presentation skills. We want to help them express their intelligence on the state standardized assessments. We will continue improving the schoolwide assessment plan already established with additional assessments like SBAC IABs, spelling inventories, schoolwide writing assessments, and the NWEA MAP. Additionally, we realize that we can improve on identification of students needing targeted support earlier in the year and then designing or finding the right support mechanism to help them improve test scores.

We have altered the wording of this goal slightly for next year to distinguish between the goal of improving instruction, providing directed support and improving test scores, which lead to different actions and outcomes. As mentioned in the introductory sections, English Language Arts and Mathematics CAASPP tests are often areas that need improvement.

exposure and data from standardized assessments. We will continue to assess phonemic awareness, letter recognition, and reading skills regularly throughout the year and analyze data to identify at-risk students. The cost associated with this may include additional NWEA fees.

2022-23 We will implement a cohesive assessment plan that includes a variety of academic assessments. In K-2, assessments in phonemic awareness, letter recognition and reading skills will be included. We will use the data to inform instruction, monitor progress and create and implement interventions including 1:1 targeted support as necessary. All students in grades 3-8 will participate in weekly lessons for test taking skills and test preparation throughout the year.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

These goals were carried out by following the designated actions. There were no substantive changes to our actions over the course of the year. We have reevaluated and changed the actions for next year.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

Having Math MAP data for K-1 (Action 1.1) has helped with early intervention and instruction analysis. While our staff is frequently engaged in informal and classroom assessment, seeing how students perform on standardized assessment has provided new insight and opportunities for intervention. Continuing to streamline our school wide assessment practices (Action 1.1) has made it easier to track students over time, identify patterns, and work on goals together as a staff. Collaborative analysis of standardized assessments (Action 1.2) has helped encourage teachers to integrate assessments such as the CAASPP-issued IABs more often and to use the data to inform their teaching. Student progress, especially those who are low-performing, has been tracked throughout the year to ensure they are receiving intervention (Action 1.3). Innovations Academy utilized a volunteer reader program to intervene with K-2 students who were still struggling to make progress in reading. All students that participated showed progress on their DRA reading assessments throughout the year. Teacher Assistants have been assigned certain students to dedicate support in their classrooms and after school. The first Monday of each month was dedicated collaborative time to analyze student work and assessment (Action 1.4) in grade-level teams. This gave teachers the time needed to look and their students and set goals. We offered free summer school to all students and free tutoring to low-performing students in June/July 2021 (Action 1.5), although it did not prove to be effective based on the data collected. It was difficult to get families to commit to a regular schedule throughout the summer and less than half of students in summer tutoring maintained or improved their NWEA MAP scores from spring 2021 to fall 2021. All of these actions together have helped us make progress on our goal of using assessment data to improve instruction for all and providing targeted intervention for those who need it.
A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We will not be offering summer school in the summer of 2022 (Action 1.5). It was a lot for our staff to manage and many of the low-performing students did not attend, so we don’t believe it led to a lot of progress towards our goal. We also will not be offering summer tutoring again (Action 1.5), since it did not show an effect on avoiding the "summer slide". Rather than using the summer to help with test prep, we will implement practices with low-performing students during the school year. We have also purchased a new software program to help us analyze student data more efficiently and accurately, which will definitely support us in progress on this goal. We also separated out the review of our academic data from our social emotional data.

For 2022-23 school year we have reworded the goal to help us distinguish the various actions that we will take. We wanted to break out social emotional and academic growth since they are measured differently. We also felt it helpful to distinguish between instruction and docus on test score improvement. The new wording: Use social emotional and academic assessment data to raise test scores, analyze instruction and provide targeted support for struggling students. We did this because we realized we are focusing on a few different things (raising test scores, using instruction to improve test scores and using intervention to improve test scores). We also altered our actions slightly to align with the new goal. Our new actions are:

1.1 We will implement a cohesive assessment plan that includes a variety of academic assessments. In K-2, assessments in phonemic awareness, letter recognition and reading skills will be included. We will use the data to inform instruction, monitor progress and create and implement interventions including 1:1 targeted support as necessary. All students in grades 3-8 will participate in weekly lessons for test taking skills and test preparation throughout the year.

1.2 We will analyze our CAASPP (state tests), IABs, DRA, MAP (additional assessment) data and compare to classroom and school based formative and summative data for any trends a minimum of three times throughout the school year. Teachers who have strong scores in each area will share their practices while teachers with struggling areas will create a plan for improvement. Teachers will be given support for improvement.

1.3 Social emotional data will be assessed at the start of the school year and struggling students will be provided support and intervention as needed

1.4 We will hold one staff meeting/month designated for analysis of student work and assessment and include development of instructional intervention plans. Professional development will be provided to teachers for instructional delivery, content and assessment.

1.5 Teachers, teacher assistants, special education staff, older students and volunteers will be trained in intervention strategies and techniques to be used with designated students

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

State Priority 6: School Climate (Engagement)
State Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

This is at the core of our approach at our school. We are committed to supporting teachers to continually improve their practice. We pride ourselves on offering our students high quality and engaging academic instruction through interactive, hands-on learning within connected and supportive classroom communities. We believe this is the reason we are all here. We apply research on best practices and child development to our instructional practices. We know that students need a safe environment with clear expectations and support in order to thrive and learn.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

With COVID regulations, increased absences, and limited substitutes, we were not able to have as many peer observations as we had hoped this school year (Action 2.3)

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

IA paid for all incoming teachers to attend Responsive Classroom and Positive Discipline trainings (Action 2.1) in the summer of 2021, which helped teachers integrate into our philosophy and establish practices for inquiry-based learning. We also offered a 1-day Positive Discipline
training for all IA staff in August of 2021, which was a great recalibration even for those who have been here for a while. New teachers were observed and set monthly goals for the first semester of the 21-22 school year (Action 2.2). Frequent training and coaching has helped all teachers improve their practice, which therefore improves the experiences and academics of the students. Targeting teachers new to the school also helped with integration into our practice of inquiry-based, challenging academics. We implemented our new salary scale which has helped us be competitive in hiring new teachers (Action 2.4) and retain teachers that align with our philosophy. Retention of teachers is one of our strongest tools in maintaining strong academics within our behavioral philosophy. We have dedicated several professional development meetings to increasing test scores (Action 2.5). It seems as though our teachers benefit from easy-to-implement strategies since we've seen many of these strategies from our meetings utilized in the classroom in engaging ways. We look forward to seeing the effect of these PD sessions once the CAASPP scores are released.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

After recognizing the importance of accurate social emotional data, we chose to purchase a new social-emotional assessment program (Satchel Pulse), instead of trying to aggregate the data ourselves in Google Forms. This will result in a change in our metric that refers to the percentage of students who feel connected/part of their school, since this is not a question on the Satchel Pulse survey. Satchel Pulse focuses their analysis on the five CASEL framework pieces so we thought that our score in these areas would reflect the effectiveness of our behavioral interventions, support, and curriculum.

Changes to these actions involve altering wording to provide flexibility for targeted professional development for teachers. For the first action, we realize that with the teacher shortage we may need to provide targeted supports. We also want 2.2 and 2.3 to allow us to leverage the skills within our organization in a way that works for teachers. Finally, 2.4 no longer made sense the way it was written so we changed the language to offer continuity with the previous action and we aligned action 2.5 with our test score changes in both goals 1 and 2 and recognizes the influx of new teachers to our profession and their needs.

This goal is not changing but we have changed the wording to the actions to help us focus on each one.

2.1 IA will provide professional development for all incoming teachers aligned with our philosophies and policies to facilitate their integration to our staff and support continuity of instruction across the school.

2.2 Teachers will be observed at least once per month, set monthly goals with a mentor, receive coaching and follow up both in areas of struggle and areas of growth. The cost associated with this may include salaries for administrative staff, stipends for teachers, substitute pay, contracts with education consultants and further professional development for teachers.

2.3 We seek to foster a collaborative environment enriching our teachers skills and knowledge to further develop and tap into the rich resources we already have in our organization. We will set a schedule and format for observations, including follow-up conversations to debrief. The cost associated with this may include paying for substitute teachers to cover classes while teachers observe each other, professional development in specific areas for specific teachers and coaching.

2.4 As best we can with limited funds, we intend to maintain competitive salaries, benefits and supports for our staff.

2.5 Professional development provided by the school will first be aimed at increasing test scores for low-income, low-performing students and then to raise the level of instruction for all students. This may include supporting teachers with individualized professional development, for induction programs and/or helping with credential needs.
A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
## Goals and Actions

### Goal # 3

<table>
<thead>
<tr>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Provide high-quality, standards-aligned materials, resources and a facility to students and teachers to support their intellectual, physical, emotional and social well-being. State Priority 1: Basic (Conditions of Learning) State Priority 2: State Standards (Conditions of Learning)</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

We know that in order to provide our students with rich inquiry-based instruction, we must provide them with high-quality materials and a safe space for them to learn. Our teachers are given the autonomy and supported in deciding what materials and standards-based curriculum will best serve their students.

### Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.  
A description of any substantive differences in planned actions and actual implementation of these actions.

<table>
<thead>
<tr>
<th>Due to COVID, supply chain issues, and unexpected hurdles, the installation of our playground structures has been delayed (Action 3.4). We were able to install one of the three that we had intended to install. We will continue to work on the other two structures.</th>
</tr>
</thead>
<tbody>
<tr>
<td>An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.</td>
</tr>
<tr>
<td>An explanation of how effective the specific actions were in making progress toward the goal.</td>
</tr>
<tr>
<td>We continued to give all students access to ST Math, Reading Eggs, Reflex Math, and Mystery Science (Action 3.1). We will continue to analyze the software together as a staff. Our end of year software survey showed that the software we implemented this year was effective so we will analyze our software access, use of software and methods of implementation with the goal of ensuring that our use of technology does not negatively impact our students. This year we implemented the new math curriculum, Illustrative Math (Action 3.2). The curriculum has supported teachers in providing rich math instruction to our students. Although the curriculum is available online free of charge, Innovations Academy bought all student workbooks and classroom manipulative kits to give our students the most access possible. We've continued to keep up the maintenance of the facility (Action 3.3). While we were not able to install all of the climbing structures, we did buy a large amount of athletic materials for our gym (Action 3.4), which has contributed to our students' physical and social well-being. IA has continued to pay for any families that need support for their children to access field trips and guest speakers (Action 3.5), ensuring that all students are able to access high-quality, inquiry-based opportunities.</td>
</tr>
<tr>
<td>A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.</td>
</tr>
<tr>
<td>We may continue to change software, such as possibly adding Beast Academy, (Action 3.1) for our accelerated students, depending on needs. This goal did not change but we clarified some of the language for the actions. Action 3.1 comes from the realization that during the pandemic and at home learning, many students have experienced, and continue to experience an overexposure to technology. Research is showing the screen time, whether educational or otherwise is having a negative impact on students. We will closely monitor and limit exposure while utilizing the technology we see as beneficial. Action 3.2 reflects the need of teachers in a hands-on learning environment to access material resources. Action 3.4 reflects the completion of our goal for last year while we continue to develop our play space. 3.1 We will reassess the use of educational software and technology in the light of technology addictions that have surfaced among our students. We will select the software that best supports our students in a variety of subject areas and use it sparingly.</td>
</tr>
</tbody>
</table>
3.2 Teachers will be provided needed supplies and resources to teach all of the required standards. Teachers will have the ability to request other curriculum resources as well as materials for hands-on learning and student inquiry projects, lessons and activities, giving our teachers the freedoms that professionals deserve.
3.3 Cost of facility maintenance: Utilities, HVAC services, filter changes, landscaping, trash and recycling, building lease, oversight fee, cleaning, maintenance and repair.
3.4 We will install playground structures on both kindergarten and upper grade playgrounds and will supply our gym and play spaces with a variety of athletic and exploratory materials.
3.5 We will make sure 100% of our students have the opportunity to engage in field trip experiences and guest speakers that enrich their knowledge and skills.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goals and Actions

Goal

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Provide ongoing analysis, accountability and intervention support for chronically absent and tardy students and their families. State Priority 5: Pupil Engagement (Engagement)</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

We know that our students succeed when they are at school. Considering the flexibility introduced in distance learning, we want to ensure that our students are attending every day and maximizing their time at school. There has been a shift in parent attitudes about school which has given rise to vacations during the school year. We want to partner with families to troubleshoot any issues that prevent their children from arriving at school on time every day (physically).

### Goal Analysis [2021-22]

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

<table>
<thead>
<tr>
<th>Action #</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

We have made our best efforts to make daily contact with as many absent families as possible, but with COVID regulations of this year, it became nearly impossible to keep up with (Action 4.1). We instead sent out weekly reminders of what to do when students are absent, including to communicate with the office and classroom teacher. Similarly, setting up family meetings regarding absences has been difficult in the midst of COVID regulations (Action 4.2). Families have been frustrated being forced to adhere to quarantine, symptom, and close-contact guidelines, and then being called regarding excessive absences. When we created absences it seemed unfair to hold students accountable for absences. Additionally, distance learning does not afford the same experience nor opportunities for learning that in school instruction provides.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

<table>

<tr>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>may include our subscription to Parent Square which enables the director to send communications efficiently.</td>
</tr>
</tbody>
</table>

An explanation of how effective the specific actions were in making progress toward the goal.

We have had several family meetings with families of chronically absent students (Action 4.2), which have resulted in increased attendance. The director issues frequent reminders of the value of being at school as well as the importance of taking vacations during vacation time (Action 4.3). While these announcements may have inspired some, it seems that a lot of our population became accustomed to the flexibility of distance learning and often take vacations during school days.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The largest change is in the frequency of contacts parents will experience due to absences. Additionally, we are hoping that quarantines will allow us to have this conversation in a sane framework of school attendance and not one in which we are forcing parents to keep their children home if they have the sniffles.
A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goals and Actions

<tr>
<td>5</td>
<td>Provide multiple engagement opportunities for parents through effective communication tools, parent participation opportunities and parent education.</td>
</tr>
</tbody>
</table>

State Priority 3: Parental Involvement (Engagement)

An explanation of why the LEA has developed this goal.

We believe that parents are the primary educators of their children. Our school traditionally welcomes our parents into their child(ren)’s education in a variety of ways. These include having an open door campus policy, chaperoning field trips, working with classes as expert speakers, helping with schoolwide or classroom events and fundraising. We do this because we recognize that parents are the most important people with the largest influence in their child(ren)’s lives. We also recognize that the parents of our most challenged students are also experiencing the largest obstacles to be with them and support them. With COVID-19 protocol, many of the ways we have involved parents in the past have not been possible. We are constantly trying to be efficient in our communication so that parents are informed but not overwhelmed by information. Involving parents in the educational and social-emotional development of their children is extremely important to us and it will always be at the forefront of our goals. As our population has changed with our physical relocation, we want to make sure that we are aware of all parents’ needs and wants and that they are aware of what the school is doing to support learning and social-emotional growth.

**Goal Analysis [2021-22]**

An analysis of how this goal was carried out in the previous year.
A description of any substantive differences in planned actions and actual implementation of these actions.

This year we adopted a new social-emotional survey software, which is still working on developing a parent component of their survey, so we were not able to administer parent SEL surveys this year. Amongst the constant changes of COVID guidelines, we did not see much interest in LCAP spending updates, so we did not include updates in weekly emails (Action 5.1).

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

An explanation of how effective the specific actions were in making progress toward the goal.

The director took advantage of the accessibility of Zoom to hold weekly open forum meetings (Action 5.1) where a variety of topics and feedback came up. Our school counselor offered SPACE training to families affected by anxiety. We enjoyed being able to welcome parents back on campus for on-site events this year. We led academic parent trainings in the form of Family Science Night, Math Night, director meetings, Exhibition Nights, and portfolio reviews (Action 5.2).
A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

We may not be able to administer parent social-emotional surveys (Action 5.1) depending on the progress made at the company we are using, Satchel Pulse. The company is working on developing the parent survey but have not communicated when they will be ready. We also recognize that some parents may feel insulted that we decided on what parent education our parents wanted, so we altered action 5.2 to include input from parents.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

Through improving the validity and analysis of our student assessments (Goal 1, Actions 1, 2, and 4), we will be able to easily identify and provide intervention to English learners and low-income students that need extra support in the classroom. Similarly, we will provide specific times to build missing skills with these students outside of the support already occurring within their classrooms. After improving our data analysis and increasing our assessments, we will be able to look at the data and practices together as a team to collaborate and problem-solve together, first and foremost focusing on English learners and low-income students.

Better quality teaching with coaching (Goal 2 Actions 1-5) will lead to success for all learners, but especially in providing intervention and clear instruction to our English learners and low-income students. Professionals collaborating can help share strategies that have proven successful for members of these populations at our school. When coaching and observations focus on high needs students, instruction can be altered to improve academic and social emotional support for those students.

Giving our students access to high quality, standards-aligned materials (Goal 3 Actions 1-5) will allow us to support all students, especially those from low-income families and English learners. Many of our software programs (Goal 3 Action 1) help English learners be able to pause, rewind, slow down, and translate academic resources. Continuing to update our curricular resources (Goal 3 Action 2) ensures that we are offering our students culturally and socio-economically diverse resources that represent them supported by current research in best practices. Ensuring we have a quality facility (Goal 3 Actions 3-4) helps our students and families feel safe here at school. Field study (Goal 3 Action 5) is also crucial for students struggling with English to connect the real world to their classroom, and for low income students that may
not otherwise have access to these experiences outside of school hours. Contacting families of absent students (Goal 4 Actions 1-3) often has a positive impact on our low-income students whose families may struggle getting their children to school. We are able to problem-solve together, connect families to carpool, or offer service recommendations for these families.

Finally, effective communication (Goal 5 Action 1) and education (Goal 5 Action 2) will serve all of our families. Our parent communication platform, Parent Square, offers easy translation to other languages which improves levels of communication with families of various backgrounds. Parent education serves many low-income families who are not able to afford parenting help/conferences on their own.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Providing free summer learning (Goal 1 Action 5) and after-school academic support (Goal 1 Action 3) can support our low-income students who traditionally cannot afford after school enrichment programs. When enrolling students in summer learning and tutoring, first priority for enrollment is given to foster youth, EL students and financially challenged families. This explicit and individualized academic support will help our low-income and English learner students make progress on their assessments as stated in Goal 1. Encouraging all students to participate in field trips and ensuring low income families understand that there is no mandatory cost for participation will benefit those students academically and by increasing engagement. Providing a bus supports access to field trips for all students equally.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

We will be adding teacher assistants to our staff this upcoming year. In our outreach for new teachers, we seek experienced teachers and apply funds to hiring these more expensive teachers. Additionally, we are adding another education specialist to our team next year. Providing free meals twice per day to our entire school population will force us to spend funds on a full time staff member who will manage that program.

Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
  
  - Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

- Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

**Plan Summary**

**Purpose**

2022-23 Local Control Accountability Plan for Innovations Academy
A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

Requirements and Instructions

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year’s LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

- **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.
- **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.
- **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**
**Purpose**

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (*EC Section 52064[e][1]*). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE’s website: [https://www.cde.ca.gov/re/lc/](https://www.cde.ca.gov/re/lc/).

**Requirements and Instructions**

Below is an excerpt from the 2018–19 *Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting*, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

**Local Control and Accountability Plan:**
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.
c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA’s philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.

Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
• Inclusion of action(s) as contributing to increased or improved services for unduplicated services
• Determination of effectiveness of the specific actions to achieve the goal
• Determination of material differences in expenditures
• Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
• Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose
Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions
LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

• Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

• Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

• Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.
Focus Goal(s)

**Goal Description:** The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Broad Goal

**Goal Description:** Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

Required Goals

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated
Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.

**Low-performing school(s) criteria:** The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

**Measuring and Reporting Results:**
For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.
Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.

The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the “**Measuring and Reporting Results**” part of the Goal.

</table>

The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions**: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. (Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in California Code of Regulations, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP).

**Actions for English Learners**: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth**: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis**:

Enter the LCAP Year.
Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

**Purpose**

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

**Requirements and Instructions**

*Projected LCFF Supplemental and/or Concentration Grants*: Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.
Projected Additional LCFF Concentration Grant (15 percent): Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year: Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

LCFF Carryover — Percentage: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar: Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year: Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

Required Descriptions:

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

Principally Directed and Effective: An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.
Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:

After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

**COEs and Charter Schools**: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

**For School Districts Only:**

**Actions Provided on an LEA-Wide Basis:**

**Unduplicated Percentage > 55 percent**: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

**Unduplicated Percentage < 55 percent**: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Actions Provided on a Schoolwide Basis:**
School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.

**For schools with 40 percent or more enrollment of unduplicated pupils:** Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

**For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils:** Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
Table 2: Contributing Actions Table (for the coming LCAP Year)

Table 3: Annual Update Table (for the current LCAP Year)

Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)

Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2022–23 LCAP, 2022–23 will be the coming LCAP Year and 2021–22 will be the current LCAP Year.

Data Entry Table
The Data Entry Table may be included in the LCAP as adopted by the local governing board or governing body, but is not required to be included. In the Data Entry Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.

- **1. Projected LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).

  See EC sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF apportionment calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will receive on the basis of the number and concentration of unduplicated students for the coming school year.

- **3. Projected Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.

- **LCFF Carryover — Percentage**: Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

- **Total Percentage to Increase or Improve Services for the Coming School Year**: This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —
Percentage. This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.

- **Goal #**: Enter the LCAP Goal number for the action.

- **Action #**: Enter the action’s number as indicated in the LCAP Goal.

- **Action Title**: Provide a title of the action.

- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering “All,” or by entering a specific student group or groups.

- **Contributing to Increased or Improved Services?**: Type “Yes” if the action is included as contributing to meeting the increased or improved services; OR, type “No” if the action is not included as contributing to meeting the increased or improved services.

- If “Yes” is entered into the Contributing column, then complete the following columns:
  - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
  - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
  - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.

- **Time Span**: Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”

- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.

- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
• **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).

  o **Note**: For an action to contribute towards meeting the increased or improved services requirement it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.

• **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.

• **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.

• **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.

• **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.

• **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

  o As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Service for the action.

### Contributing Actions Table

2022-23 Local Control Accountability Plan for Innovations Academy
As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

**Annual Update Table**

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

**Contributing Actions Annual Update Table**

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants**: Provide the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).

  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

**LCFF Carryover Table**

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of LCFF funding the LEA estimates it will receive for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Grant Program and the Home to School Transportation Program, pursuant to 5 CCR Section 15496(a)(8).
• 10. **Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

**Calculations in the Action Tables**

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

**Contributing Actions Table**

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  
  o This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column

- 5. Total Planned Percentage of Improved Services
  
  o This percentage is the total of the Planned Percentage of Improved Services column

- Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)
  
  o This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

**Contributing Actions Annual Update Table**

Pursuant to EC Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- 6. Estimated Actual LCFF Supplemental and Concentration Grants
  
  o This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- 4. Total Planned Contributing Expenditures (LCFF Funds)
  
  o This amount is the total of the Last Year’s Planned Expenditures for Contributing Actions (LCFF Funds)
• 7. Total Estimated Actual Expenditures for Contributing Actions
  
o  This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds)

• Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)
  
o  This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4)

• 5. Total Planned Percentage of Improved Services (%)
  
o  This amount is the total of the Planned Percentage of Improved Services column

• 8. Total Estimated Actual Percentage of Improved Services (%)
  
o  This amount is the total of the Estimated Actual Percentage of Improved Services column

• Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)
  
o  This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8)

**LCFF Carryover Table**

• 10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 + Carryover %)
  
o  This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.

• 11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)
  
o  This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).

• 12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)
  
o  If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
13. LCFF Carryover — Percentage (12 divided by 9)

- This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
January 2022
