Eighth Graders Taking Algebra

Students who take algebra in eighth grade are prepared for more advanced coursework in math and science once they reach high school. They are also more likely to attend and graduate from college than eighth-graders who do not take algebra. AVID encourages its junior high students to pursue college-preparatory coursework such as algebra, and they complete it at an impressive rate.

AVID General Data Collection 2012-2013, 8th graders enrolled in AVID, n = 73,574

The number of AVID 8th graders enrolled in Algebra is more than 50% higher than the national average.

8th Graders who Enrolled in Algebra

- AVID: 55%
- U.S.: 34%
The AVID Impact

Completion of Four-Year College Entrance Requirements

AVID students complete university entrance requirements at a much higher rate than their non-AVID peers.

Advanced Placement

Students reflect on the impact of their AP experiences.
Benefits of Advanced Placement

- Students develop skills and content knowledge to prepare them for the rigor of college.

- Students who receive a 3 or higher, begin their college majors sooner.

- More likely to graduate from college in four years than their non-AP peers.
