Dear Alcott Elementary School Stakeholders:

**Subject: School Security Improvements**

The San Diego Unified School District has started a school security improvements project at Alcott Elementary School. This project is funded by Measure YY, which was approved by voters in 2018.

**Project:** The security fencing improvements project consists of upgrades to the perimeter fencing at Alcott Elementary. This would include, but not be limited to, raising fence height, providing vehicular and pedestrian access gates, and securing the joint-use field area, where required.

The project also includes creating a safe and secure single point of entry to the main school office for visitors and parents during school hours.

**What to expect:** Construction is sometimes disruptive; however, the project team works closely with the school to minimize impacts to the surrounding community. To avoid disruption to learning, construction activities may take place during weekends, evenings, and school breaks. Our contractors will follow social distancing and safety guidance created by public health authorities and will do their best to limit noise, dust, odors and disruptions associated with this project. We appreciate your patience and understanding while this site is under construction.

**Estimated Completion:** Spring 2021

For more project details, please visit <https://fpcprojects.sandi.net> or contact Construction Manager Darren Hollis at [dhollis@sandi.net](mailto:dhollis@sandi.net).

Sincerely,  
Don Webb
