GECKO DADS CORP

The Green Elementary Gecko Dads Corp exists to foster optimal parent/school interaction and volunteer commitment for the benefit of our children. Through active involvement in school activities, dads are able to both enhance their bonds with their children and help build a stronger school/community partnership to ensure a superior Green Elementary School experience. Through better inter-parental interaction, dads can establish stronger social ties with one another and be more aware of the latest school developments and direction.

GDC is not exclusive to just Dads. All parents are welcome to participate in any event/initiative.
