

Modified Quarantine Options

When your child is a close contact to a person with the COVID-19 VIRUS you have options for quarantine.

Return on Day 15

No additional requirements. Testing on or after Day 5 is recommended.

All of the following options for students are limited to close contacts that occurred in a school setting (any setting supervised by school staff).

Return on Day 11

Testing on or after Day 5 is recommended but not required.

OR

Return on Day 8

Provide evidence that a diagnostic specimen collected on or after Day 6 (from the date of last exposure) is negative.

OR

Modified Quarantine (remain in school)

Remain in school with twice weekly testing (each test at least 3 days apart). Student must quarantine from all before-school, after-school and weekend activities, and may resume these activities on Day 8 with evidence of a negative test sample collected on or after Day 6.

Additional Requirements for the three options listed above

The student must continue daily self-monitoring for symptoms, AND follow all recommended non-pharmaceutical interventions (e.g., wearing a mask indoors, hand washing, avoiding crowds) through Day 14 from last known exposure. Mask use outdoors is also encouraged.
