  - The board participated in a voluntary third-party audit. This was at no cost to the foundation.
  - The volunteer auditor said overall, we, as a foundation, have great practices with just a few reminders:
    - Please remember we need 2 signatures on all deposit forms.
    - Everything needs a deposit form.
    - We are trying to avoid any cash or checks from sales being taken home. Please, if you are chairing an event, meet with Jessica beforehand. She can help support you and can figure out what works best for that event, as all events will be different.
  - Moving Forward:
    - We will begin internal audits.
    - During meetings, the Treasurer report will now include a list of all checks written the month prior and all expected line item expenses for the following month. We will need to vote to ratify all checks written and vote to approve all upcoming proposed expenses.

  - Katie M. made a motion to approve the November upcoming expenses.
  - Devon G. seconds

- **PROPOSED CD ACCOUNT TOTALS**
  - $112,000 was previously approved to put into a CD. Due to some confusion on what CD was approved and interest rates changing, we as a foundation now need to revote. We would like to close one of the two savings accounts and move $112,000 to a CD.
    - The options are:
      1. Banner Bank CD rate: 13 months 1.36%
      2. SDCCU rate CD rate: 12 months 1.25%
      3. PLCU: 13 month 1.54%
  - A discussion was held on whether or not to spend that money or put it into the CD. Including the history behind why we wanted the money transferred to a CD originally.
  - Becca said the worst-case scenario would be if we have to pull it out there would be a charge.
  - Megan noted that even with the CD set aside, we still have approximately $80k that is not currently allocated for.
  - Becca motioned to put $112,000 into highest return CD.
  - Lisa seconds
  - Approved

   - Monster Bash was different this year because it was during the day vs. night.

- Teachers are having their students use the Starfall Program in class, which is similar to ABC mouse. It is primarily language arts, math, and some science. - The cost of a one-year subscription is $270 and covers the entire school.
- The increased use of technology was discussed.
- Liz pointed out that it isn’t more use in screen time. The paid version is just a more efficient way to use the program.

- To get grants approved, there will be a form submitted to the Foundation President and School Principal and then presented to the Foundation for approval at monthly meetings.
- First come first serve. It is recommended to get the proposals in as early as September.
- This is a great way to encourage others to come to the foundation with ideas.
- Anyone can fill out a proposal anytime with an idea and how they will implement it.
- The person presenting it is responsible for implementing the proposal.
- Kate L. said she can turn it into a google form, track it, form a link that can go on website. It can be accessed by teachers and parents.
- It would have to be worked into the budget every year.
- You can always vote to add more money to it.
- The point is to have children benefit while they are at LPE.
- Liz said this is something teachers would love to have implemented. It would give them more of a welcoming voice to ask for things.
- Megan noted it doesn’t have to benefit the entire school.
- It was noted that $25,000 would be a good start.
- In the future this would give us a clear line item to pull funds from.
• Jessica noted after everything is allocated, including the approved $112,000 we are putting in a CD, we have approximately $86k available.

This will be an opportunity for teachers and parents focused around the work of Tim Elmore and his book Generation Z. In a nutshell, Dr. Elmore focuses on how the current generation of children in schools today are growing up in environments that are moving at the speed of light and the gap between generations is growing faster than ever. Kids now learn and communicate very differently from students even 10yrs ago.
• The event will be held on February 20, 2020. It will be a PD session for all of our teachers, followed by a nighttime event open to all parents in Point Loma. The Cluster plans to purchase 450 copies of Tim Elmore’s book, giving all educators a copy, and distributing the remaining copies to the first 150 families who attend the evening lecture. Hans Becker from PL High will provide babysitting, and translators will also be provided.
