Following directions with left and right: Read each sentence, directing your child to circle the appropriate picture. Have your child hold the pencil only in his dominant hand, reaching across his body if needed.

Circle the sun on the left.

Circle the list on the right.

Circle the x-ray on the right.

Circle the lion on the left.

Tip for parents: Direct your child to arrange his toys in a specific order, using positional terms such as right, left, above, below, and next to. For example, “Put your bear to the right of the book.”
