RE: ATHLETIC OPPORTUNITIES FOR MET STUDENTS

Dear Parents,

As of May 9, 2005, the California Interscholastic Federation (CIF), who governs the district's participation in athletic competition, has granted the San Diego Met School a multi-campus agreement, since the Met does not offer any sports and is not a CIF SDS member school. As a result, Met students who are interested in playing sports and competing at a CIF designated school will be able to participate as follows:

“Beginning in the 2005-2006 school year, San Diego Met students will be eligible for CIF athletics at their SCHOOL OF RESIDENCE ONLY.”

If your child would like to participate in athletics, it is crucial that you inform me as your principal and contact the principal/coach of the sport you are interested in at your resident school to obtain all sport specific information and the schedule of try-out dates. The coach will be responsible for notifying the administration at your resident school to compete as a multi-campus athlete. A San Diego Unified School District (SDUSD) Athletic Participation Form is required from each student. All SDUSD and CIF SDS residential and academic eligibility requirements must be met. **NO TRANSPORTATION** will be provided for this purpose.

The Met staff and I are committed to providing our students with an exemplary academic and social environment where they will excel. We also realize that athletics play an important role in the lives of some students. We support all of our students in their endeavors.

If you have any further questions regarding CIF athletics at the Met, please call me at (619) 388-2299.

Thank you for your continued support.

Cordially,

Mildred Phillips,

Principal
