

Communication to Principals from Children and Youth in Transition

In compliance with legislative requirements of AB 27, schools are required to have public notification of educational rights for students experiencing homelessness.

Schools are also required to send out and collect housing questionnaires to all students to ensure students experiencing homelessness are identified and supported.

To support schools with meeting this requirement, CYT staff will be personally delivering updated posters to your schools to be posted in your front office. CYT will also be sending communication via School Messenger to families to complete the housing questionnaire and return the form to the school.

Between 11/29-12/17, please expect to receive the questionnaires from your families. If a family should request a paper copy, please provide them with a paper copy to complete and turn into the office. Here are the links to the housing questionnaires in English and multiple languages:

Should families have questions about completing the questionnaire, the following guidance is available, ([Guidance for Housing Questionnaire](#)) .

We want to minimize the stigma associated with experiencing homelessness.

Upon receipt of the housing questionnaire, schools will update student housing status in PowerSchool. Please see job aid here; [Powerschool Job Aide: For Students Experiencing Homelessness](#)
