Timekeepers and Payroll Procedures

- Assist your Timekeeper in the development of well-organized procedures for payroll reporting.
- Ensure that Timekeepers are periodically attending Time & Labor Training.
- Open communication is key in assuring accurate payrolls. Set expectations for accountable payroll activity with your entire staff at the beginning of each school year.
- Integrity of data input and back-up documentation is crucial. All absences and hourly pay must have signed time cards for authorization.
- Develop an effective sign in procedure, particularly for visiting teachers and hourly subs.
- Record Retention: Payroll records must remain onsite for 3 years plus current. Grant requirements may require longer retention of certain records.
Timekeepers and Payroll Procedures (Continued...)

- Ensure timely notification of employee status changes and PAR processing. Pay special attention to resignations, leaves of absence, and employees who do not report back after winter, spring and summer breaks. Make sure PARs are being submitted immediately when you become aware of status changes. If it’s close to a payroll deadline, contact your Payroll Specialist so they can intervene if necessary.

- Make sure payroll reporting is accurate and on time to facilitate paying our employees correctly. Report all earnings in the earnings period that they are earned. Never hold timecards to be reported at a later date.

- Stay educated on our collective bargaining agreements and district procedures.

- Employee leave policies must be followed precisely and applied consistently among staff (ask your payroll specialist when in doubt).
Reconciling Your Payroll

- Use the Monthly Payroll Checklist for Managers to assure all tasks and reports are being managed timely.

- Check your rosters (filled position reports and/or timesheet in Time and Labor) for employees you do not recognize or for employees working but not on your roster. Make sure your timekeeper notifies Payroll immediately of discrepancies.

- Review the time summary report for unusual Time and Labor entries, excessive overtime, etc.

- Validate that back-up documentation has been provided for all absences and time reported. Make sure your timekeeper has payroll records for your employees organized and up to date.

- Validate that absences have been reported for employees reporting to SAMS and that sub assignments have been reviewed and verified in Time and Labor.

- Take steps to avoid overpayments/underpayments. Overpayments occur as a result of things like: late notification of employee resignations, terminations and leaves of absence and inaccurate time reporting. Underpayments occur as a result of things like: late reporting of hours worked, late notification of increases in FTE and late PAR submission for employee actions.
Audit Reports

- Audit Paid to Reported Time Report (official payroll audit report)
  - Make sure your timekeeper runs this twice a month: Tenth of the month for the monthly payroll and twentieth of the month for the hourly payroll. Validate what’s been reported and sign as authorizing manager. These reports must be kept in an orderly fashion at the site for 3 years plus current, or 4 years.

- Cross Site Account Code Charges Report
  - Have your timekeeper run this just prior to timekeeper deadlines for monthly and hourly payrolls. Validate and sign as authorizing manager.

- Site Account Code Charges Report
  - Have your timekeeper run this just prior to timekeeper deadlines for monthly and hourly payrolls. Validate and sign as authorizing manager.

- Time Summary Report
  - Have your timekeeper run this periodically to review hours being reported for a range of dates and for either individual employees or your entire department.

- Leave and Vacation Balance Reports
  - Review leave balance and vacation balance reports regularly.
  - Run the last day of each month.

*Note: a description of these reports is included in the Payroll Reports Chart. A link to this chart is found on the front page of the Payroll web page.*

Late Reporting and Financial Accountability

- Hours and absences should be reported in the earnings period in which they are earned. That means time reporting should be done at least weekly for hours and absences that occur that week. Planned vacation can be entered prior to the week in which it will occur. Vacation taken will be deducted from balances during the monthly payroll cycle. The monthly payroll close process takes into account leave taken on dates during that pay period (1st of the month to last day of the month).

- Projected sick leave for employees on extended absence should be entered for the duration of the extended illness and will be taken in each month that it has been reported for.

- Between July 1, 2021 and June 30, 2022, 5.2 million hours of positive time and absences were processed for employees.

- Between July 1, 2021 and June 30, 2022 more than 51,000 hours were processed for employees more than 75 days after the report date (date worked or date of absence). Of the 51,000, more than 28,000 were absences.

- This district is considered a monthly remitter by the IRS and is expected to report as much of our employee earnings as possible on the monthly payroll for the current pay period.
Late Reporting and Financial Accountability (Continued)

- At no time should positive hours be withheld until subsequent payrolls or the end of the fiscal year then paid in one lump sum. This practice distorts the payroll expense in your financial reports and does not provide a true picture of budgeted vs. actual expenses.

- SAMS absences must have a corresponding absence reported in Time and Labor. Only hours for substitutes are populated to Time and Labor through the SAMS interface. Please make sure your timekeeper evaluates SAMS absences and reports an absence for that employee in Time and Labor.

- Accurate and timely reporting and accounting of expenses is critical in managing district resources. District financial reporting requires diligent accounting in all areas.

- Payroll accounts for more than 90% of the district budget. Everyone responsible for managing these expenses must adhere to required timelines for reporting earnings and auditing our records.
Employee Verification-Active/Terminated/FTE Placement

► Review your rosters and Filled Position reports (see sample roster and filled position report on next two slides).

► Check to see if too many employees are erroneously reported as active.

► Review FTE placements for accuracy.

► Carefully review any Personnel Action Requests (PARs) for accuracy. Verify the FTE and the Time and Labor calendar. These two job characteristics are critical to paying employees accurately. Contact Human Resources with any questions about the correct calendar or FTE placement.

► Make sure a termination or change of assignment PAR is completed immediately upon notification of an employee resigning or going on leave of absence. Notify your Payroll Specialist so they may intervene as needed if necessary to avoid overpayment.

SAMS Reporting/Verification and Reconciling Employee Attendance

- Ensure that you have a sign in system for substitutes.
- Validate that substitutes have signed in and out for the entire time reported for the assignment.
- Validate an absence has been reported in Time and Labor by your timekeeper for any absence reported to SAMS.
- SAMS certificated substitute assignments are scheduled for 8 hours and default to 8 hours in Time and Labor. Visiting teachers are paid a daily rate of pay regardless of hours of service according to SDEA contract language associated with assignment (Review SDEA contract language in Article 32, Section 32.3.1.)
- SAMS classified assignments are scheduled for the actual time to be worked. And should be validated as such.
- SAMS verification can be done by individual job/employee or with a feature called “Set All to Verify.” When using the Set All to Verify feature you must be sure that all substitutes worked the amount of time reported. In addition, this feature only verifies all assignments one page at a time. If using this feature you must verify all pages individually when there are more than one.
