

POLICY SECTION 1022: Student Drug and Alcohol Abuse

POLICY

The Ahkwasasne Mohawk Board of Education recognizes that the use of illegal drugs and/or alcohol is detrimental to mental and physical health, and to the educational and social development of the student. Such use also negatively affects the student's family and the school community. Therefore, the staff of the Ahkwasasne Mohawk Board of Education, with the assistance of support services, may refer students for assessment when necessary.

GUIDELINES

Procedures are provided for intervention, referral for treatment, and disciplinary action if appropriate. Flexibility in usage of procedures is recommended for students based on various ages and grade levels of students in our school system.
