

POLICY SECTION 301: Administration Goals

POLICY

Under the policies of the Board, the general purpose of the Board's administration shall be to coordinate, supervise and promote an academic environment in which students learn effectively. Administrative duties and functions should be appraised in terms of the contributions made to improving instruction and learning. The Board shall rely on the Director of Education to provide the professional administrative leadership demanded by such a goal.

The Board's administrative organization shall be designed to ensure that the Board office and the schools are part of an integrated system guided by Board policies, implemented through the Director of Education. The School Principal/Leader is, therefore expected to administer his/her school in accordance with Board policy.

The Board firmly believes that the mere execution of directives does not in itself constitute good administration. Visions, initiative, efficient resource allocation and wise leadership as well as consideration and concern for employees, students, parents and Elders are essential elements of effective administration.
