

POLICY SECTION 519: Role of the School Principal

POLICY

The Ahkwesahsne Mohawk Board of Education believes that the Principal is the instructional leader of the school. The Principal is directly responsible to the Director of Education for the implementation of the school program, for fostering conditions that will maximize learning, for the efficient use of physical and financial resources, and for the effective performance of personnel. Through careful management of its resources and personnel, the Principal will build on the strength of the school, and continuously seek to improve its educational climate and student achievement.

GUIDELINES

The Board views the role of the Principal to include (3) main areas of responsibility.

1. Responsibilities related directly to the school;
2. Responsibilities pertaining to school and community relationships;
3. Responsibilities concerning the relationship between the school and the community, the Director of Education, and the Board.

It is expected that the school Principal will delegate duties and roles to other staff members in accordance with their strengths, interests and expertise. Nevertheless, the Principal assumes overall responsibility for any and all activities at their respective school.
