

# Logging an Android device on to HCDE RADIUS

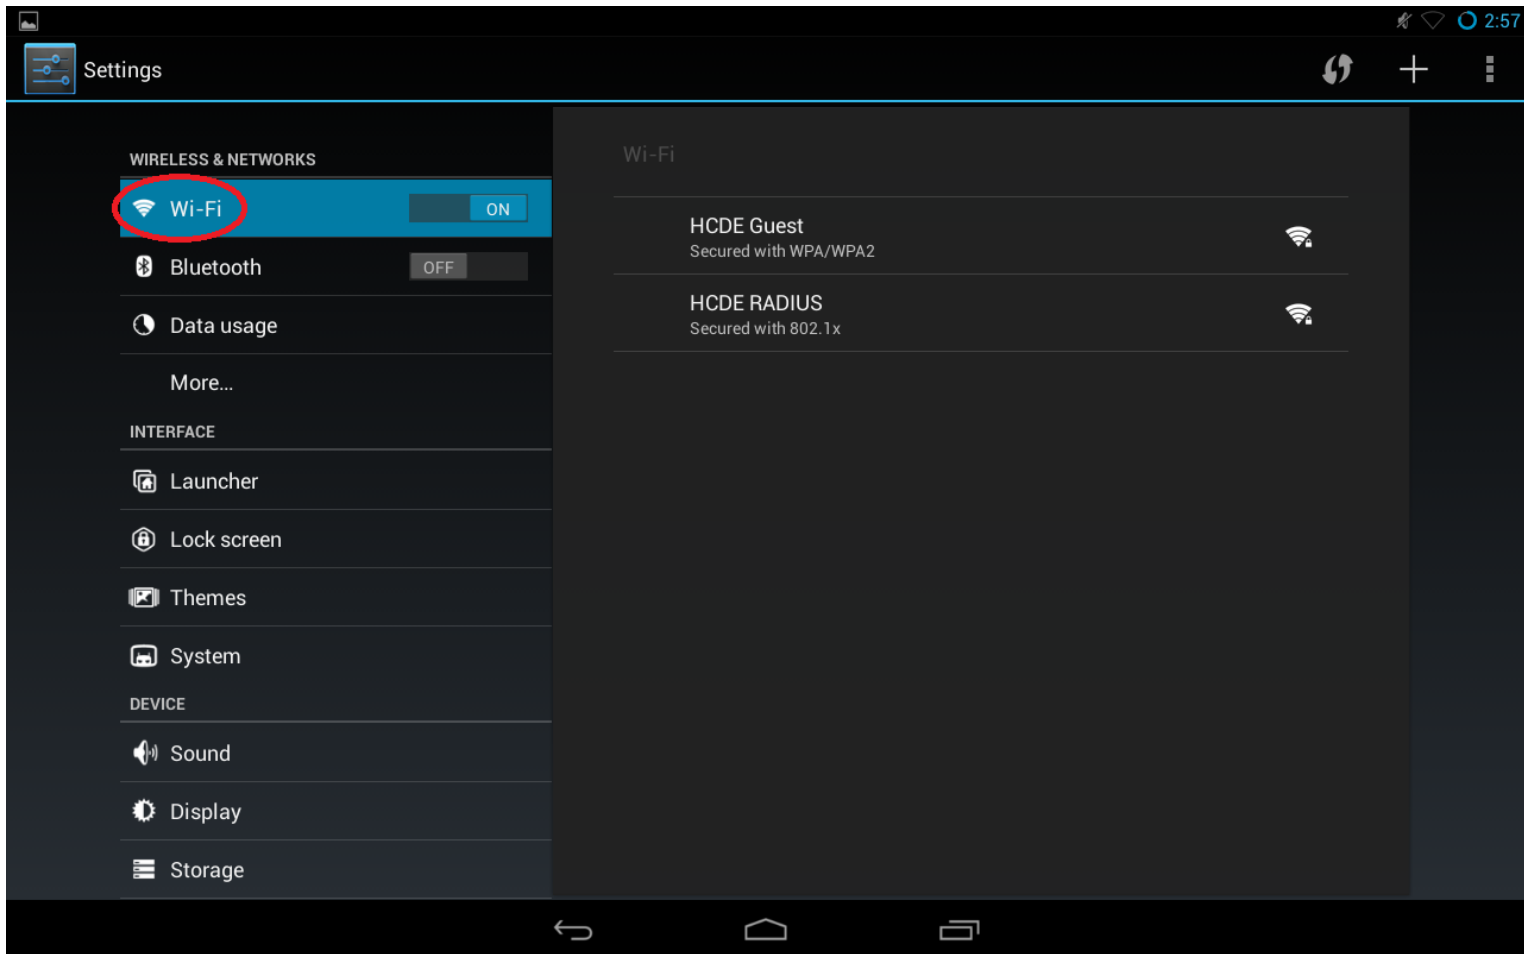

# Find the settings tile

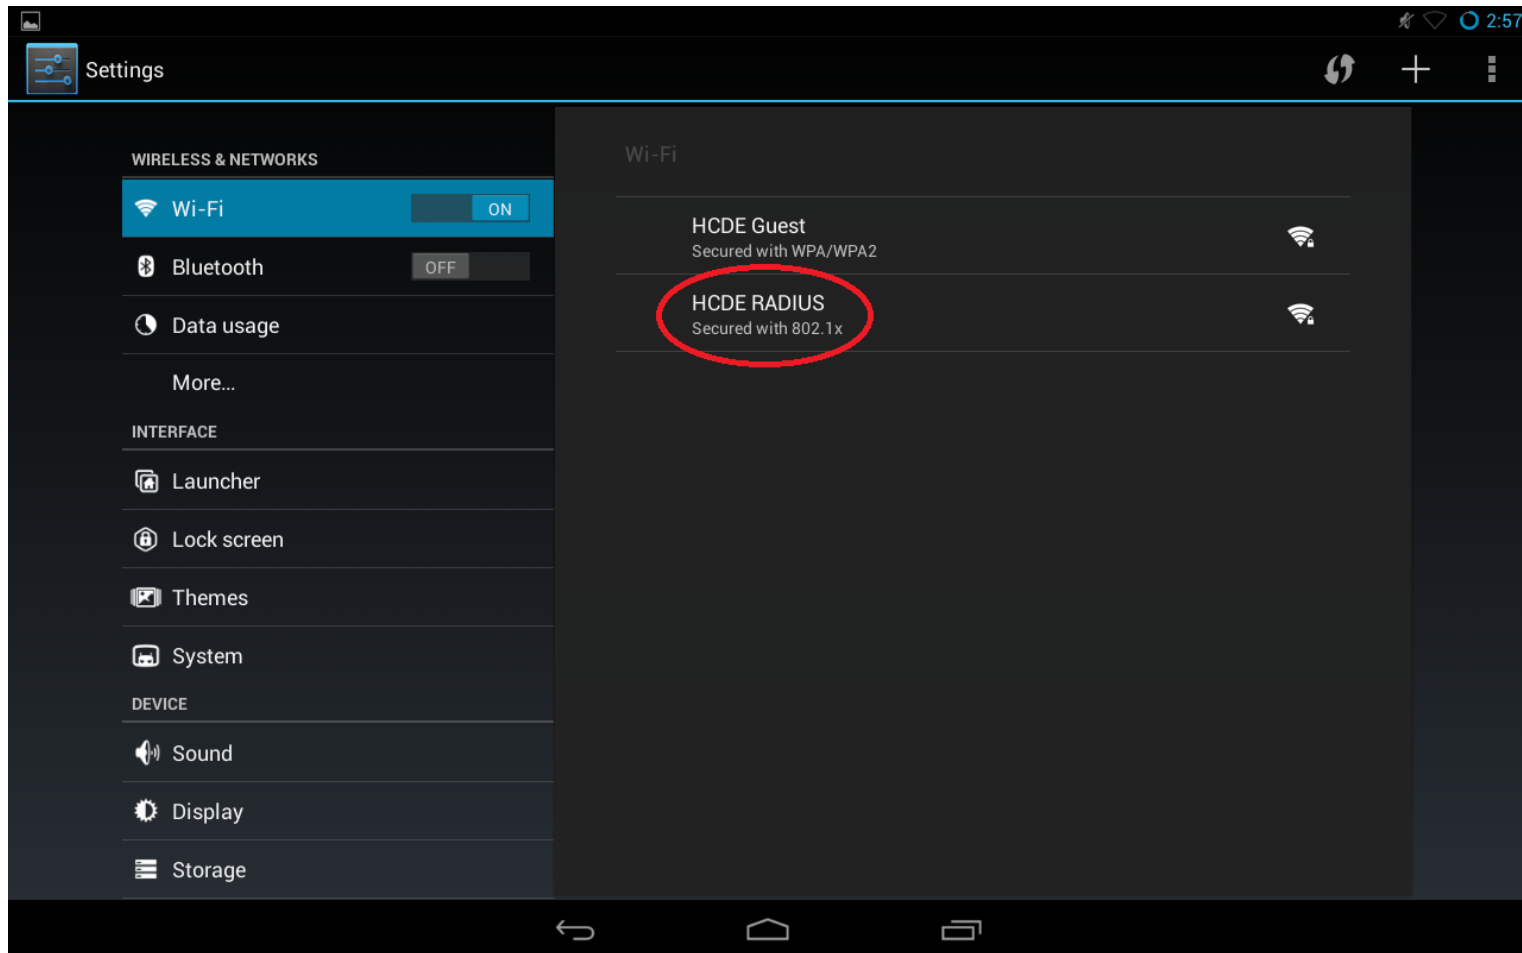

Different Android devices will have different settings tabs

- If your device's settings tab does not look like the one in the picture, please navigate your device to its Wi-Fi settings tab and proceed to the next slide.

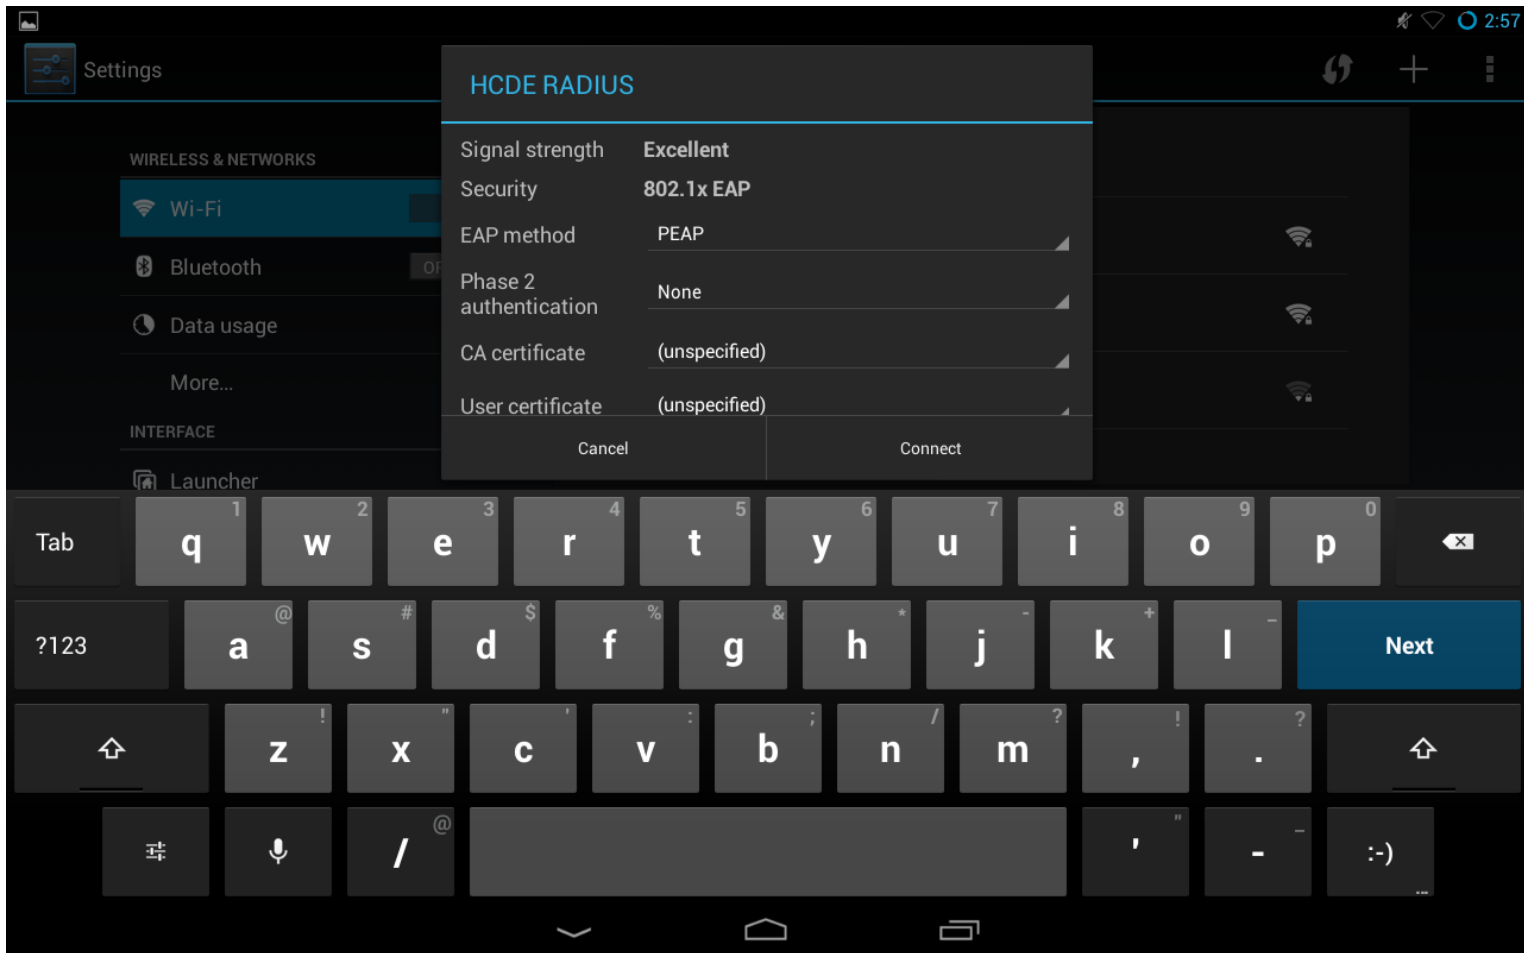

# Press the Wi-Fi tab on the left

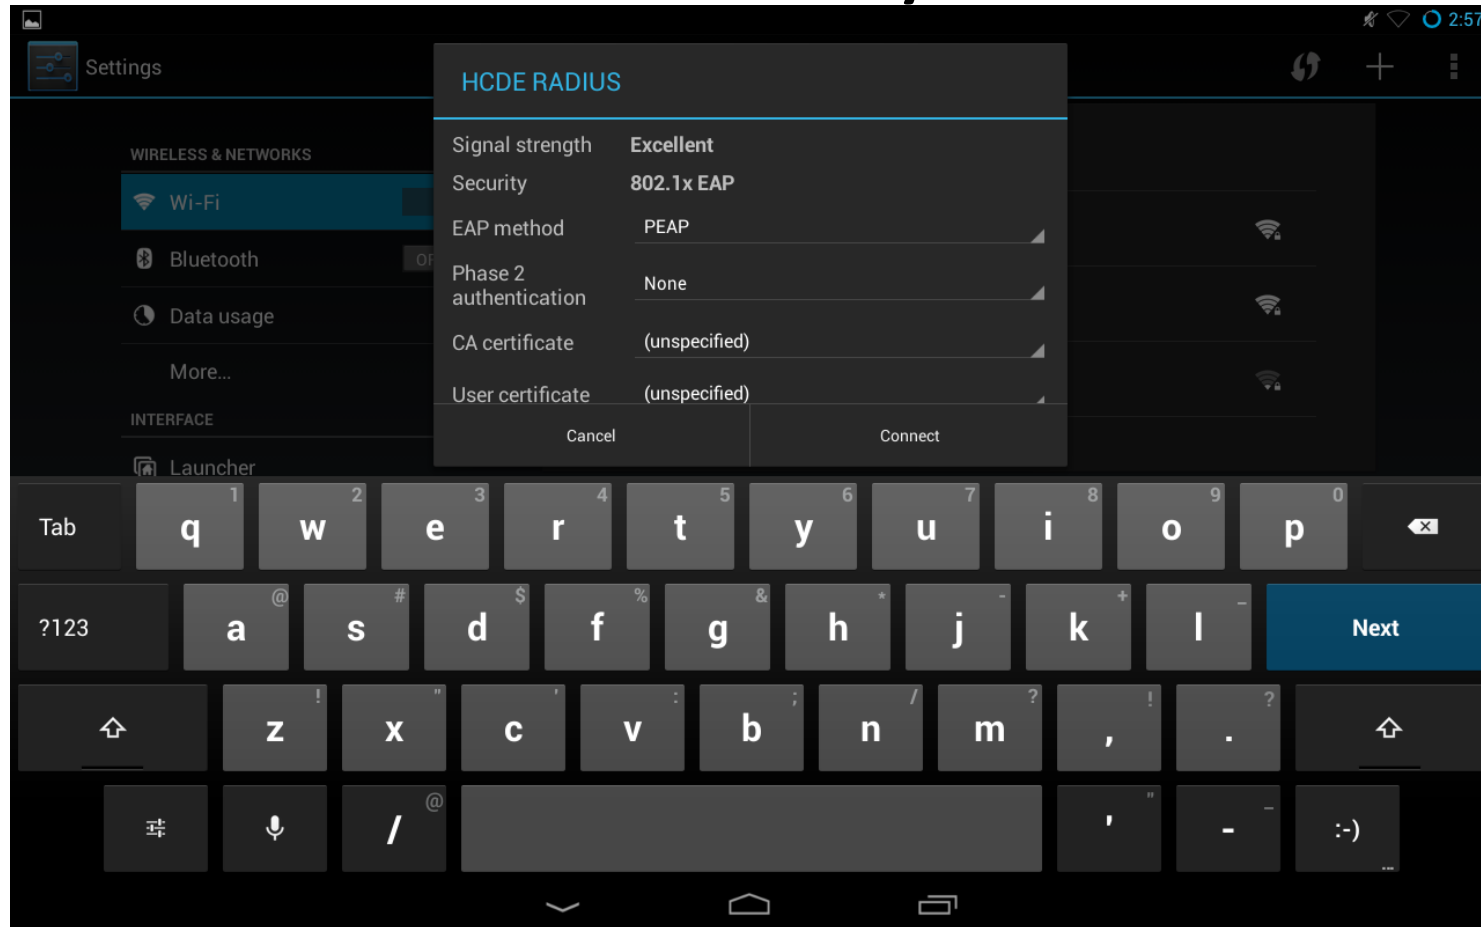

# Under CHOOSE A NETWORK, select HCDE RADIUS

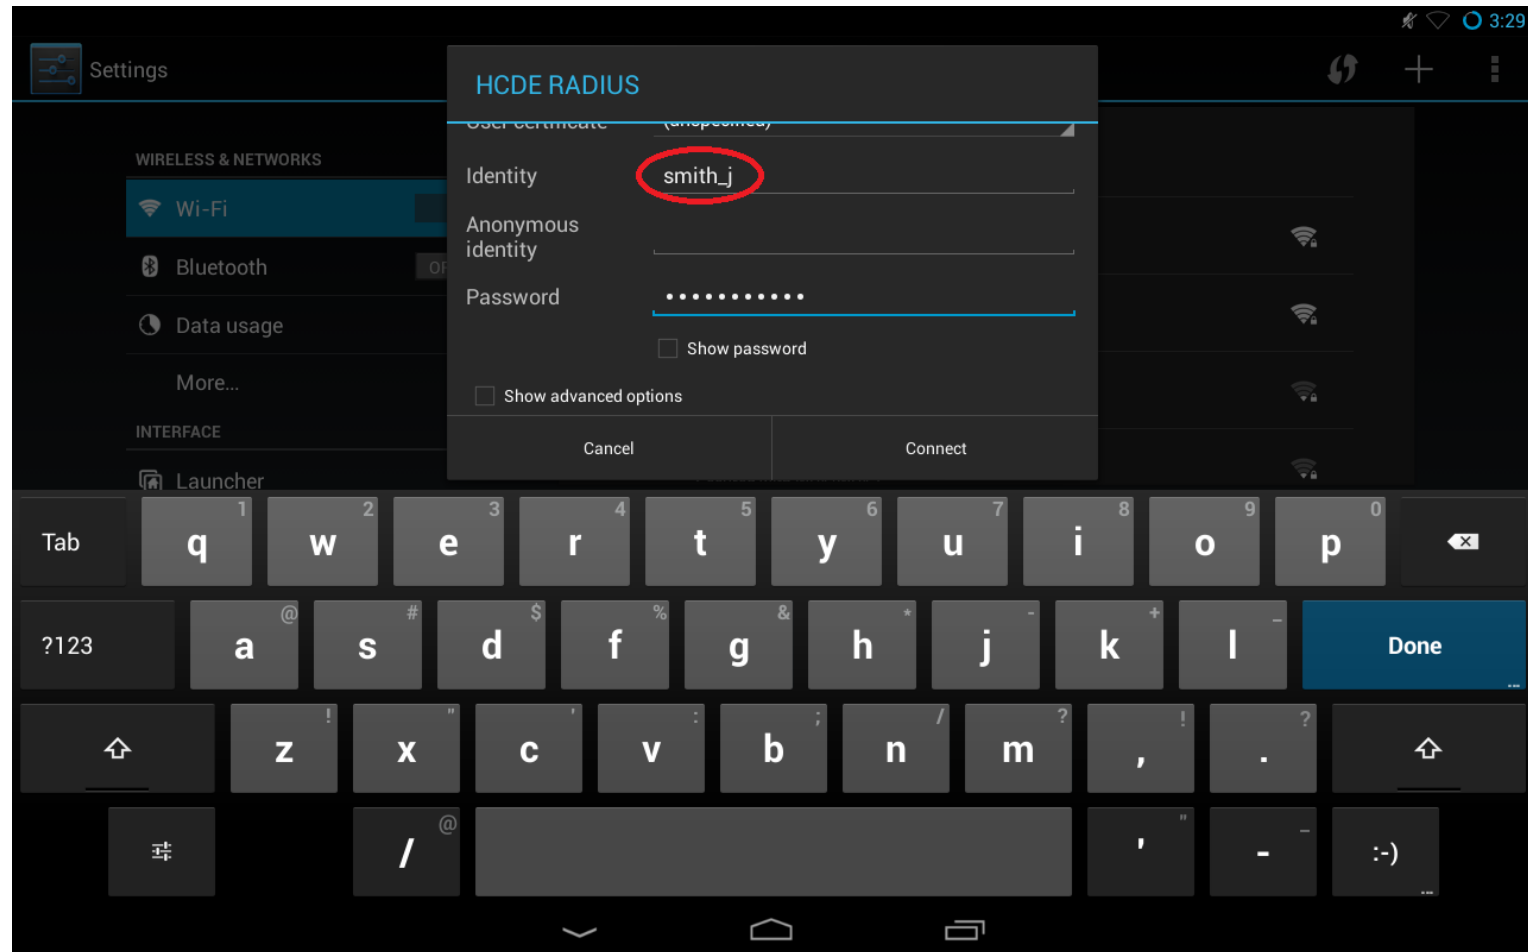

# After you select HCDE RADIUS, this screen will appear

You will see several settings options.  
Scroll until you see the field for  
Identity

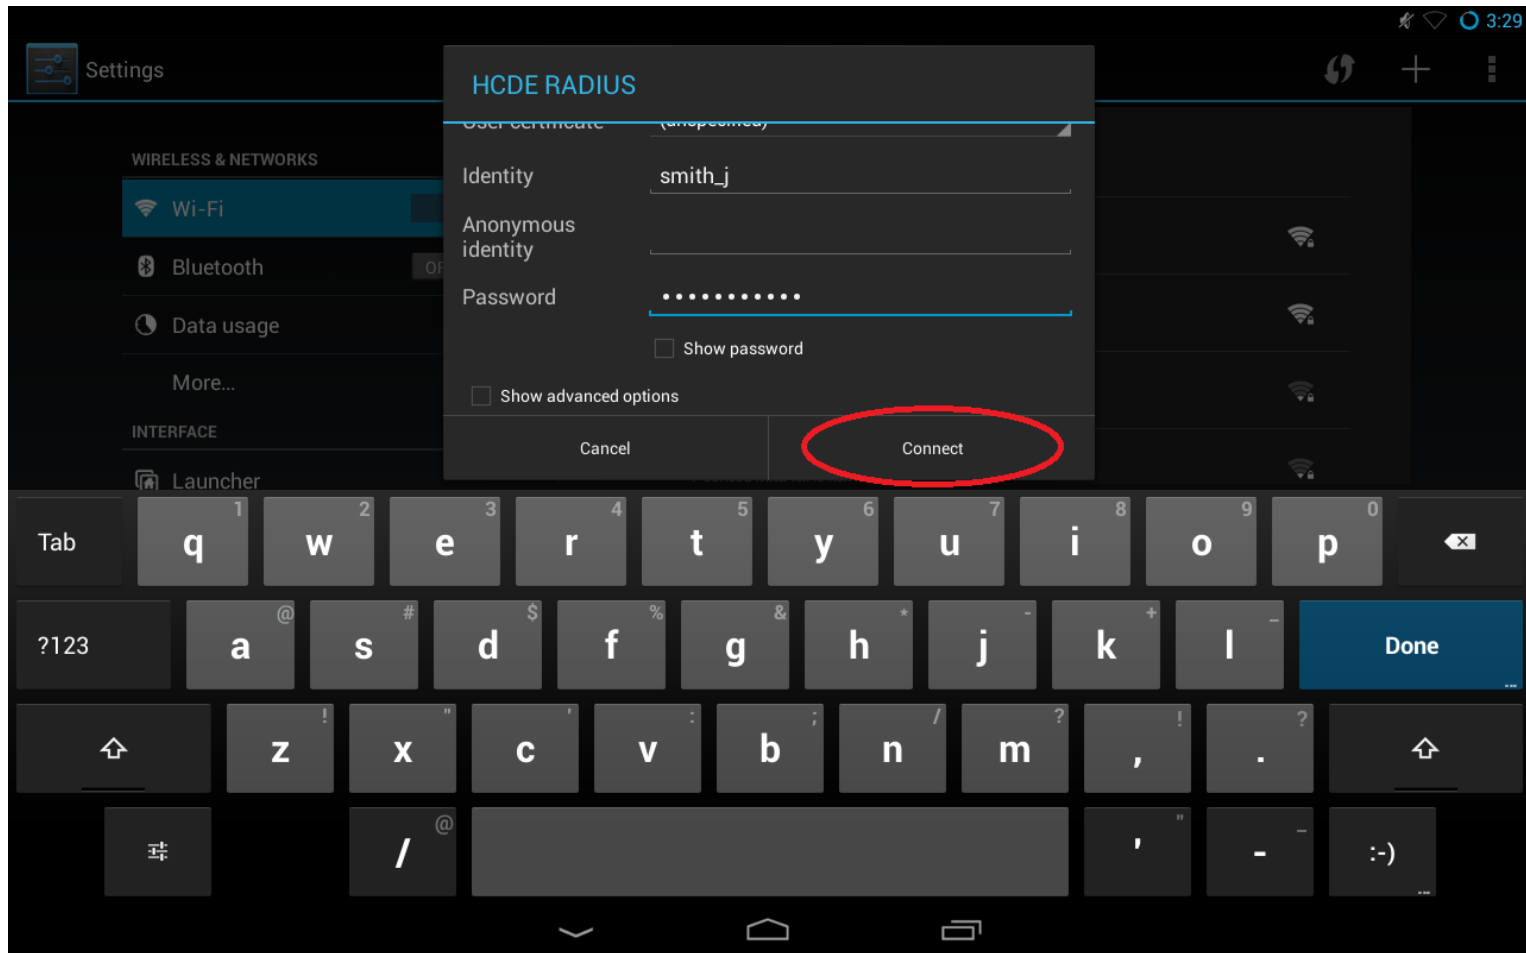

Under Identity enter your HCDE Username. This is your HCDE email address WITHOUT @hcde.org

# Enter your password & then press the Connect button

After a moment, the screen will switch to this. When you see it say Connected, you are done
