

GCISD Educational Technology Advisory Team

Purpose:

To develop a sustainable team of GCISD parents, teachers, students, and administrators that will gain a deeper understanding of educational technology including digital learning and GCISD technology-related goals. The team will use this knowledge to discuss both short-term and long-term technology plans to ensure the effective use of technology to enhance student learning and to support LEAD 2.0 goals.

Goals:

- Gain deeper understanding and knowledge of the purpose of educational technology
- Engage in an open and transparent dialogue with team members regarding digital learning recommendations aligning with LEAD 2.0 goals
- Engage with other stakeholders to educate and share information about the effective use of technology in the classroom
- Maintain a core team that will have the understanding and knowledge of the latest relevant educational technology that will serve as an advisory role if or when future decisions are needed

Team Members:

- Parents (4)
- Teachers (4 representing grades K-2, 3-5, 6-8, 9-12)
- Students (4 representing grades K-5, 6-8, 9-12)
